

Jenzabar SONIS: Made for Technical Institutions

Jenzabar SONIS is a cloud-based, mobile-ready student information system designed for specialized or technical institutions. Jenzabar SONIS connects students, faculty, and administrators through a single, easy-to-use system to improve campus-wide efficiency.

Jenzabar SONIS brings together admissions, registration, billing, course management, and other administrative functions in a single, intuitive system with a centralized database to seamlessly connect campus users and operations. It offers institutions the flexibility and agility to launch and manage competency-based education (CBE) and other specialized programs for the new student and the business community.

Advantages

- ▶ Ensure data is always immediately accessible and up to date by consolidating siloed student information into one system.
- ▶ Track credit and clock hours (or a combination) based on specific program/career major or course-level needs.
- ▶ Attach competencies to academic programs so students can identify critical takeaways per course.
- ▶ Build, launch, and support CBE programs that enable more personalized learning journeys.
- ▶ Attract and retain more diverse student demographics by offering flexible education programs.
- ▶ Help students demonstrate marketable and employable competencies for potential employers.
- ▶ Deliver personalized communications to prospective and existing students.

Features for Specialized & Technical Institutions

Clock & Credit Hour Management

Jenzabar SONIS enables faculty and administrators to capture and track students' clock hours and credit hours per academic program. The flexibility to track attendance or academic requirements provides faculty with more control and allows teachers and staff to spend more time enabling and empowering student success.

Competency-Based Education Support

Jenzabar SONIS supports CBE programs, which is especially important for specialized or technical institutions. Through a CBE initiative that allows students to accelerate through academic programs based on their ability to demonstrate predefined competencies, institutions can give students more control over their learning and better ensure success outside of the classroom. Offer students certificates in addition to transcripts or programs/career majors upon completion.

An SIS for Specialized & Technical Institutions

Jenzabar SONIS connects students, faculty, staff, and administrators through a centralized database. The system allows students to apply online, register for courses, pay bills, conduct degree audits, and more at any time, from any device.

Recruitment and Admissions

Improve student engagement, increase staff efficiency, and ensure no prospective students fall through the cracks.

- ▶ Design targeted campaigns with automated communications.
- ▶ Manage prospect to-dos and notifications.
- ▶ Configure and enable multiple online applications.
- ▶ Enhance applicant and enrollment reporting.
- ▶ Enable applicants to monitor the progress of their application and upload/download documents directly from the applicant portal.
- ▶ Allows applicant references to send recommendations directly to the school electronically.

Student Information

View and update student biographic records in real time and monitor students' academic journeys.

- ▶ Automate course management.
- ▶ Centralize student health records, registration, and transcripts.
- ▶ Track housing and parking assignments.
- ▶ Deliver personalized career and placement services.

Student Billing

Streamline and optimize billing operations to provide students with a wide range of payment options.

- ▶ Automatically post fees to student financial records.
- ▶ View billing histories in real time and print 1098-Ts.
- ▶ Adapt charges to student attributes.
- ▶ Build reports and drill down to full student ledgers.

Financial Aid

Streamline financial aid processes, eliminate hours of tedious paperwork, and improve student engagement.

- ▶ Personalize award letters.
- ▶ Import ISIR data.
- ▶ Automatically disperse notification emails.
- ▶ Capture student loan information.
- ▶ Allow students to view, accept, reject, or modify awards online.

Course Management

Deliver courses through new methodologies that cater to how modern students learn.

- ▶ View schedule and student rosters.
- ▶ Upload course materials and syllabi.
- ▶ Create and manage online assignments, tests, quizzes, and forums.
- ▶ Enter grades, take attendance, and communicate with students.

Advancement

Formulate and execute winning alumni development and engagement campaigns.

- ▶ View donor employment, interests, volunteer, giving, and function attendance histories.
- ▶ Access donor activity and gift management.
- ▶ Manage donor pledges, payments, and fundraising events.
- ▶ Centralize alumni and fundraising reports.
