The BIG Picture

The founders of AgeCare, Dr. Hasmukh Patel and Dr. Kabir Jivraj, were the first in Alberta to introduce the "aging-in-community" model, enabling individuals, couples, families, and friends to remain together in the same community as their needs change.

The concept is simple – we offer quality and professional services that make your life rich and fulfilling, with a range of housing options, in a vibrant community that feels like a home, not a hospital.

Today, we're a leader in innovative care and services for seniors, with options for every lifestyle.
