

**Logicalis Production Ready Cloud**

# Proven cloud transformation that delivers business value at speed.

In a fast-changing technology landscape, migrating workloads and managing a secure cloud platform can be complex and cumbersome. The transition to cloud places a lot of strain on internal resources and often exposes gaps in expertise.

## **Logicalis Production Ready Cloud**

helps you transform your business with a scalable and secure cloud platform delivered in a fast, cost effective and controlled way. Our proven approach delivers value at speed, with low risk, so you know you'll get it right – the first time – in record time.

# A tried and tested framework to help you achieve your vision.

Setup and manage your Azure cloud at speed in a controlled and compliant way while minimising cost. Through our three-step approach, complemented by our expertise and best-in-class technology, we help you to both strategically plan and execute on your cloud strategy.

## Step 1: Align

### Readiness assessment

Cloud strategy roadmap and workload transformation plan with highly accurate cost expectations.

### Security assessment

Detailed considerations around security, network, governance and application architecture.

## Step 2: Transform

### Platform implementation

Deployment of a standardised best-practice platform using a proven approach that reduces time to value.

### Workload migration

Low-risk migration with a new Azure application or existing lift-and-shift focus, to safely migrate workloads to cloud.

## Step 3: Scale

### Managed services

Services to manage cloud performance, optimise cost and ensure governance and security.

### Ongoing innovation

Continually modernise and innovate throughout the business lifecycle for long term growth.

# Our proven methodology and value-driven approach is what sets us apart.

Leverage our years of experience in successful cloud migrations with an Azure Expert MSP audit-approved framework.

## **Global presence, local execution**

With a physical presence in 25 countries and experience working with global customers, we're a #1 MSP in the mid-market sector, serving 10,000 customers worldwide.

## **End-to-end capabilities**

We have unique consulting capabilities as well as managed services for implementing and running cloud solutions, and managing the customer lifecycle.

## **Value-driven engagements**

Occupying a space between GSIs, local specialist SIs and service providers, means our repeatable model is focused on simplicity, speed and agility to help clients achieve value faster, with less risk.

## **Industry specialists**

Our network of 6,500 employees has strong expertise in architecting change in financial services, banking, healthcare, government, manufacturing and more.

# We're in the top 1% of Microsoft Azure partners globally.

As an Azure Expert Managed Services Provider we help our clients maximise the benefits that can be achieved from Azure.

## Our managed services expertise allows us to:

- ▶ Accelerate business growth using infinite compute capacity.
- ▶ Leverage the full potential of new and innovative features offered by Azure.
- ▶ Ensure that your platform and ecosystem is as secure as it possibly can be.
- ▶ Align your cloud strategy with your business strategy and objectives.

## Stay ahead of change with a cloud platform that delivers value at speed.

Get in touch to find out how our team of experts can help you build a secure, flexible modern cloud platform at speed and low risk, with our our reliable framework and tested methodology.
