

## Ruby on Rails Application Developer (remote)

Great technology is built by people with a true passion for innovation. Are you a full stack Ruby on Rails developer with strong foundational skills and the flexibility to take on a variety of responsibilities? Do you love collaborating with a small team to build high quality, scalable software? Read on!

### Responsibilities

Your primary focus will be building new features onto an existing Rails application with a Postgresql database. You should be comfortable writing object-oriented code and working with the full stack.

- Write and maintain readable, reusable and reliable Ruby code
- Integration of user-facing elements using HAML, ERB, and Coffeescript
- Integrate with data stores using Postgres and Redis
- Help maintain code quality, organization and automatization with the assistance of Code Climate
- Assist with automated testing and acceptance testing as needed.
- Work closely with team to ensure quality user experiences and bug free releases

### Qualifications

- Experience with Ruby on Rails, along with other common libraries such as RSpec and Sidekiq
- Solid understanding of front-end technologies, such as JavaScript, HTML5, CSS3, and Coffeescript
- Working knowledge of AWS / Elastic Beanstalk / NginX stack.
- Strong understanding of object-oriented programming
- Good understanding of server-side templating languages such as HAML, ERB and SLIM
- Good understanding of server-side CSS preprocessors, we use SASS
- Ability to engage in a TDD environment using RSpec
- Proficient understanding of code versioning tools, we use Git and a standard Gitflow model
- Previous experience in applying agile, test driven development

## Requirements

- BS in Computer Science, or other technical degree plus CodeCamp
- 3+ years' experience in application development using Ruby on Rails
- US Resident with permanent US work authorization required
- High speed internet and ability to participate in video calls.

## About Digsite:

Digsite is a Madison WI based technology company that helps consumer brands like Sub-Zero, American Family Insurance, and T-Mobile get consumer feedback as they build new products, customer experiences or marketing programs. We're growing fast, and seeking smart, energetic and results-oriented people to join us on the journey. Learn more at [www.digsite.com](http://www.digsite.com)
