

## Application Developer – Ruby on Rails (remote)

Digsite® [www.digsite.com](http://www.digsite.com)

Great technology is built by people with a true passion for innovation. Do you love applying test driven development to build high quality, scalable software? Are you a full stack Ruby on Rails developer with strong foundational skills and the flexibility to take on a variety of responsibilities? If this sounds like you, read on!

### Responsibilities

Your primary focus will be working on a Rails application with a Postgresql database. You should be comfortable writing object-oriented code and working with the full stack.

- Write and maintain readable, reusable and reliable Ruby code
- Integration of user-facing elements using HAML, ERB, and Coffeescript
- Integrate with data stores using Postgres and Redis
- Expand integrations with Google Natural Language and other outside integrations
- Help maintain code quality, organization and automatization with the assistance of Code Climate
- Work closely with team to ensure quality user experiences and bug free releases

### Qualifications

- Experience with Ruby on Rails, along with other common libraries such as RSpec and Sidekiq
- Solid understanding of front-end technologies, such as JavaScript, HTML5, CSS3, and Coffeescript
- Working knowledge of AWS / Elastic Beanstalk / NginX stack. Knowledge of Azure is a plus.
- Strong understanding of object-oriented programming
- Good understanding of server-side templating languages such as HAML, ERB and SLIM
- Good understanding of server-side CSS preprocessors, we use SASS
- Ability to engage in a TDD environment using RSpec
- Proficient understanding of code versioning tools, we use Git and a standard Gitflow model
- Previous experience in applying agile, test driven development
- Exposure to .NET development a plus

### Requirements

- BS in Computer Science, or other technical degree plus CodeCamp
- 5+ years experience in developments with Ruby on Rails
- US Citizen or permanent US work authorization required
- High speed internet and ability to participate in video calls.
- Must live in the United States and be able to travel to Madison WI 3-4 times per year (post Covid)

### About Digsite:

Digsite is a Madison WI based technology company that helps consumer brands like Sub-Zero, American Family Insurance, and T-Mobile get consumer feedback as they build new products, customer experiences or marketing programs. We're growing fast, and seeking smart, energetic and results-oriented people to join us on the journey.
