

South Carolina Schools Scope & Sequence

Grade 6

- Microbiome
- Metabolism
- Engineering Internship: Metabolism
- Thermal Energy
- Plate Motion
- Engineering Internship: Plate Motion
- Rock Transformations
- Weather Patterns
- Ocean, Atmosphere, and Climate

Grade 7

- Harnessing Human Energy
- Phase Change
- Engineering Internship: Phase Change
- Magnetic Fields
- Earth's Changing Climate
- Engineering Internship: Earth's Changing Climate
- Chemical Reactions
- Populations and Resources
- Matter and Energy in Ecosystems

Grade 8

- Geology on Mars
- Earth, Moon and Sun
- Light Waves
- Force and Motion
- Engineering Internship: Force and Motion
- Traits and Reproduction
- Natural Selection
- Engineering Internship: Natural Selection
- Evolutionary History
