Interim Management Report

For the six months ended 31 August 2007

The Directors are pleased to present the unaudited Interim Management Report for the six months ended 31 August 2007, this being the first report to Shareholders following the change of Company name from Murray VCT4 PLC to Aberdeen Income and Growth VCT PLC, effective from 25 July 2007.

Highlights

- Increase of 3.1% in NAV total return over the six months ended 31 August 2007.
- NAV total return of 102.7p per share ("pps") at 31 August 2007; compared to 99.6pps at 28 February 2007.
- Interim dividends of 3.5pps declared.
- 17 new unlisted and AIM investments made during the period under review.
- Disposals generated net realised gain of £2,232,000.
- Increase of 13.5% of the value of the AIM portfolio over the six months ended 31 August 2007, compared to an increase of 0.5% in the FTSE AIM All-Share Index.

Performance

The six-month period ending 31 August 2007 has seen a further increase in NAV total return on the Ordinary Shares which rose over the period by 3.1% to reach 102.7pps. The Net Asset Value ("NAV") per Ordinary Share at 31 August 2007 was 77.4pps compared with 81.1pps as at 28 February 2007; dividends totalling 6.8pps were paid to Shareholders in March and July 2007 which reduced the NAV at the time of payment.

There is no venture capital trust index with which to compare the performance of the Company; however, the value of the AIM portfolio rose by 13.5% over the six-month period, which compares with the increase in the AIM All-share Index which rose by 0.5% over the same period.

Unlisted investments held by Aberdeen Income and Growth VCT are valued in accordance with the International Private Equity and Venture Capital Valuation Guidelines. Investments which are traded on the Alternative Investment Market (AIM) or a recognised stock exchange are valued at their bid price.

Dividends

During the reporting period, the Company paid dividends totalling 6.8pps to Shareholders and has also generated realised capital gains (which are shown in the table on page 10) amounting to 6.3pps. The Board has declared an interim capital dividend of 3.0pps, representing almost 50% of the gains realised during the six months ended 31 August 2007, to be paid along with an interim revenue dividend of 0.5pps on 7 December 2007 to Shareholders on the register on 9 November 2007. Upon payment of these dividends, the Company will have paid 10.3pps to Shareholders in the twelve-month period ending 31 December 2007, equivalent to an annual yield of 27.5% to a higher-rate taxpayer on the mid-market share price of 50p as at 11 October 2007.

Co-investment

Aberdeen Income and Growth VCT has co-invested with other funds managed by the Aberdeen Asset Management Group in a number of investments and expects to continue to do so. The advantage of this arrangement is that, by investing together, the funds are able to underwrite a wider range and size of transaction than would be the case on a stand-alone basis. In addition, the Manager's staff co-investment scheme has continued to co-invest alongside the Company in each investment made during the period.

Regulatory changes

The overall VCT market declined by approximately two thirds in the year to 5 April 2007 which reflects the changes to the VCT regulations announced in the last two Budgets. For funds raised after 5 April 2006, new restrictions on the size of company in which VCTs can invest, where those investments are to be treated as qualifying, were introduced. The regulations introduced in the 2007 Budget are particularly onerous in this regard, focussing on the maximum number of employees in addition to placing a limit on the amount which can be raised under venture capital schemes by the investee company. However, those new 2007 regulations do not affect the money raised originally by the Company, which can continue to invest in the same scale and type of company that has helped drive recent performance improvement.

Investment activity

We are pleased to report an exceptionally strong period of new investment activity. During the six months to 31 August 2007, seven new unlisted investments and ten significant AIM investments were made. A total of £5.4 million was invested during the six-month period. At 31 August 2007, the investment portfolio consisted of 74 active unlisted and AIM investments having a total cost of £29.9 million.

The following new investments were made during the reporting period.

Investment	Date	Activity	Cost £'000

Portfolio developments

Unlisted investments

Following the five successful realisations during the year ending 28 February 2007 which resulted in the payment of the capital dividends in December 2006, March and July 2007 to Shareholders, two further complete realisations have occurred in the reporting period as shown in the table on page 10. The sale of Enterprise Food Group was the final realisation in a series of disposals which has seen total proceeds of £1,059,000 compared to the original investment cost of £598,000. RMS Europe was sold in a secondary management buy-out generating proceeds of £1,481,000 compared to the original cost of £784,000. The proceeds were in line with an earlier approach from a trade buyer which did not proceed. The realisations from Astraeus and ELE Advanced Technologies were partial repayments of loan stocks in line with the terms of those investments. The proceeds from EIG (Investments) were in respect of deferred consideration on finalisation of the completion accounts following the sale of that company in January 2007 on which a gain of £705,000 had already been accounted for.

During the reporting period, seven new substantial unlisted investments have been added to the portfolio. We are pleased to note that each has traded in line with, or ahead of, its business plan since investment; however, it is likely to be some time before these investments reach a level of maturity which enables profitable exits to be negotiated.

The Board continues to take a prudent view on the valuation of unlisted investments and there has been a net reduction in the value of the portfolio of £403,000 as at 31 August 2007. Provisions taken against a small number of legacy investments have been offset by increased valuations of companies where trading has improved and earnings are forecast to increase.

AIM investments

The AIM portfolio has continued to be actively managed during the reporting period, resulting in net realised gains over cost of £1,209,000; details of these transactions can be found in the table on page 10.

In addition to the realised gains shown, unrealised gains over the valuations as at 28 February 2007 amounting to £163,000 were achieved during a period when the market, towards the end of the reporting period, became more unstable. The shares which achieved the largest gains were Amazing Holdings (£92,000), Axeon (£69,000), Neuropharm Group (£45,000) and Tanfield Group (£197,000). These gains were partially offset by unrealised losses on 1st Dental Laboratories (£42,000), Imprint (£75,000), Synexus Clinical Research (£88,000) and Worthington Nicholls Group (£161,000). The reduction in Worthington Nicholls Group followed a trading statement at the end of June which did not meet market expectations and the share price fell by 35%. The company made a further trading statement in mid-August, after which the share price fell by a further 40% compared to the cost of investment and management changes have ensued.

AIM was volatile in the weeks immediately prior to 31 August 2007, in line with markets generally, but the Company's AIM portfolio has achieved an increase of 13.5% for the six-month period, which compares to the increase in the AIM All-share Index of 0.5% for the same period.

Realisations

The following table shows all sales from the investment portfolio made by the Company during the reporting period:

	Year first invested	Complete/ partial exit	Cost of shares disposed of £'000	Sales proceeds £'000	Realised gain/loss £'000

Total			1,990	4,222	2,232

Risk and uncertainties

The Board has reviewed the principal risks and uncertainties facing the Company in the second half of its financial year and these are unchanged from those that it faced at the start of the year. The Directors ensure that the Manager closely monitors the position of the Company to ensure that it complies with the venture capital trust regulations at all times and, in order to minimise the Company's exposure to investment risk, the Manager has constructed a portfolio of investments in over 70 unlisted and AIM quoted companies across a diverse range of industrial sectors in the United Kingdom.

Outlook

In contrast to the profitable exits achieved during 2006, the first half of 2007 has seen the Company invest in a number of new transactions which offer significant medium-term return potential. The Manager hopes to maintain the momentum in completing new unlisted investments as the process of rebuilding this element of the portfolio continues.

The strategy applied by the Manager is to use its extensive UK network to identify suitable private companies and invest the majority of the portfolio in private equity transactions which offer growth potential and a healthy running yield, in tandem with an actively managed AIM portfolio primarily focused on new companies seeking an IPO on that market. AIM investments are traded out as soon as market liquidity permits, providing the opportunity for early capital gains if the company proves attractive to retail investors post IPO. Going forward, the Manager believes that this dual approach on AIM and private equity provides the optimum return model for VCT investors.

11 October 2007

On behalf of the Board
Murray Johnstone Limited
Secretary

The accompanying Notes are an integral part of the Financial Statements.

Notes to the Financial Statements

1. Accounting policies

The financial information for the six months ended 31 August 2007 and the six months ended 31 August 2006 comprises non-statutory accounts within the meaning of Section 240 of the Companies Act 1985.

The financial information contained in this report has been prepared on the basis of the accounting policies set out in the Annual Report and Financial Statements for the year ended 28 February 2007.

The results for the year ended 28 February 2007 are extracted from the full accounts for that year, which received an unqualified report from the Auditors and have been filed with the Registrar of Companies.

	Share premium account	Realised capital reserve	Unrealised capital reserve	Capital redemption reserve	Profit and loss account

Investment management fees	–	(234)	–	–	–
Dividends paid	–	–	–	–	(2,418)
Tax effect of capital items	–	168	–	–	–
Profit on ordinary activities after taxation	–	–	–	–	440
As at 31 August 2007	17,235	2,618	(6,758)	339	10,465

3. Return per Ordinary Share

The returns per share have been based on the following figures:

	Six months to 31 August 2007
Weighted average number of Ordinary Shares	35,463,992
Revenue return	£440,000
Capital return	£678,000

Directors' Responsibility Statement

The implementation of the EU Transparency Obligations Directive and the associated amendments to the rules laid down by the UK Listing Authority require the Directors to confirm their responsibilities in relation to the preparation and publication of the Interim Management Report and Financial Statements.

The Directors confirm that, to the best of their knowledge:

- the Financial Statements for the six months ended 31 August 2007 have been prepared in accordance with applicable accounting standards and with the Statement of Recommended Practice "Financial Statements of Investment Trust Companies" ("the SORP") issued in December 2005;
- the Interim Management Report includes a fair review of the information required by DTR 4.2.7R in relation to the indication of important events during the first six months, and of the principal risks and uncertainties facing the Company during the second six months, of the year ending 29 February 2008; and
- the Interim Management Report includes adequate disclosure of the information required by DTR 4.2.8R in relation to related party transactions and any changes therein.

11 October 2007
