The ClareOne Wireless Ceiling Mount 360° Motion Sensor was designed to be mounted on ceilings while offering a 360° passive infrared motion detection area coverage. The motion sensor features a small form factor of only 2.95x1.39 inches, allowing for discrete installation, as well as an extended battery life of up to 4-6 years.

Performance Highlights:

- 360° motion detection coverage area using passive infrared technology.
- Two selectable sensitivity settings can be toggled for different environments and detection sensitivity.
- Compact form factor allows for easy, discrete installation.
- Extended battery life up to 4-6 years.
- Encrypted technology prevents detector takeovers.
- Pairs easily and quickly with the ClareOne Panel
