Overview

Before installing, familiarize yourself with the parts of the camera.
Performance Series Cables

Ethernet Adapter

Alarm Input and Output

12 VDC

## Value Series Cables

Ethernet Adapter

12 VDC

Skirt

Camera Body

Base

Installation

1. Drill a cable hole and ¼" pilot holes, using the supplied template.

2. Using the provided hex-key, loosen the machine screw on the side and remove the base.

Note: When removing the base, do so on a flat surface to avoid dropping the camera body.

Installation

3. Insert the drywall anchors. Secure the base to the mounting surface using provided screws.

4. Connect an ethernet cable that is connected to the desired POE enabled network into the camera's ethernet adapter.

Installation

5. Rotate the camera body to the desired viewing angle.

6. Snap the camera body into the base.

7. Using the provided hex-key, tighten the machine screw on the side until the camera body is secured firmly to the base.

Note: A small "lip" is present on the inside of the base. Secure the interlocking ridges underneath this lip before attempting to snap into place.

Camera Setup & Default Password

IMPORTANT NOTE: The default camera setup password is the **FIRST 6 Characters of the UUID/SN**.

You will be prompted to change the password when setting up the camera. Please refer to the Quick Start Guide for complete setup instructions or by visiting: *https://bit.ly/34bllND*
