

Order to Table

Give customers the power to order when they want and increase average transaction value (ATV) with quick and easy touchless ordering to the table. No app download required.

OFFER GUESTS GREATER CONVENIENCE AND TAKE PRESSURE OFF STAFF WITH ORDER TO TABLE.

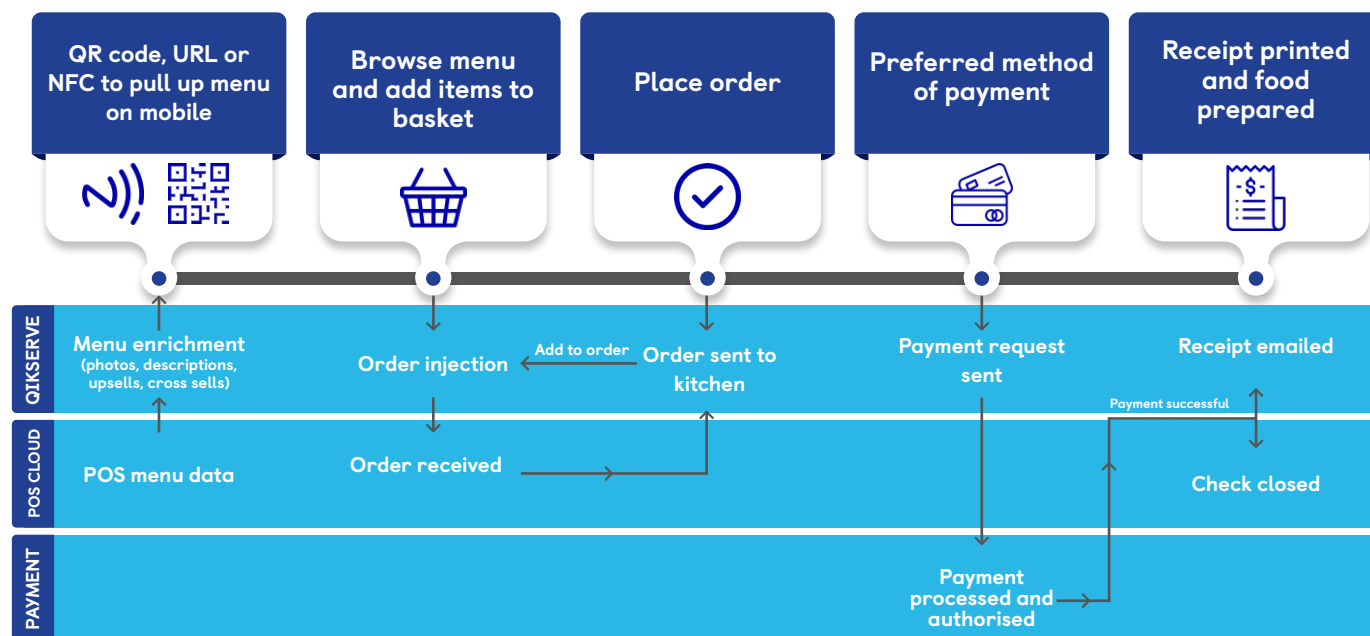

Give your guests the power to order and pay directly from their table using Order to Table. Order to Table can streamline your in-store operations, improve order accuracy, boost revenue and drive loyalty. We can configure your end-to-end digital ordering and payment journey, enhanced with your brand colours and imagery ensuring your customers have a completely seamless and more accessible experience.

Order to Table features & benefits

Features	Benefits
Web app and/or native app	Our web app requires no download. Just click, connect, order and pay. If you have an existing app, add ordering and payment to it using our APIs.
View menu via QR code, NFC or URL	Have the flexibility to design the user journey around what suits your customers and your brand. Scan a QR code, tap an NFC tag or type in a URL to initiate the ordering journey.
Upsell and cross-sell	Suggest relevant items to customers during the ordering process and drive average transaction value (ATV).
Modifiers	Let guests have their meals exactly the way they want it with the ability to modify their own order.
Highly scalable	We can deploy in high volume, multi-location businesses across the world meaning you can scale with stability and speed.
Rapid deployment	Our comprehensive out-of-the-box functionality and seamless integrations allow us to deliver enterprise-wide solutions, quickly. (See below for supported integrations.)
Multi-language, multi-currency	Remove the language barrier and currency confusion by offering a globalised solution for an increasingly globalised world. Languages and currencies can be added on request.
Online ordering portal	Manage your online ordering and view analytics from one dashboard.

Integrations

We're integrated with many third party platforms. Some of our integrations include:

POS

Payment

QikServe is adding partners all the time. If you don't see the integrations you need, please come and talk to us about your requirements.
