

The mobile touchless payments solution for hospitality. Faster, safer service delivered right to your guests' own device without the need to download an app or set up an account.

SECURE, TOUCHLESS MOBILE PAYMENTS ACROSS ALL YOUR SERVICE POINTS

Our enterprise approach to QikPay means we can configure secure, digital payment capabilities ensuring your customers have a completely seamless experience and peace of mind. Let your guests pay when it suits them whether it's at their table, the counter or drive through. Streamline operations and take pressure off staff allowing them to focus on delivering great customer service.

The customer journey

More payment methods coming soon

QikPay can help drive revenues through multiple service channels

QikPay gives you the flexibility to take digital payments regardless of the type of operation. Let your guests pay at the counter, their table or at drive through using their own mobile device. Protect staff and guests by minimising the use of shared PED devices.

With this touchless payment method, QikPay can help you support:

Pay at Table

- Customer finishes meals and is ready to pay
- Scan QR Code or tap NFC tag on table to retrieve check
- Review, add tip and/or split check
- Choice of payment options
- Make payment, receipt sent straight to inbox

Pay at Counter

- Customer orders meal as usual at the counter via staff
- Scan QR code or tap NFC tag at counter to retrieve check
- Review check with option to add tip
- Choice of payment options
- Make payment, receipt sent to inbox
- Pick-up food at the counter when ready

Pay at Kiosk

- Customer browses menu and chooses their meal using kiosk
- When ready to pay, scan QR code on the kiosk screen with mobile
- Review check with option to split check
- Choice of payment options
- Make payment, receipt sent straight to inbox

Drive-Up

- Customer drives into a parking bay outside a store
- Place order either through mobile or with a member of staff using a mobile POS
- Scan QR code on signage or presented by staff
- View check, split and/or adds tip
- Staff brings food straight to car when ready

Drive-Thru

- Customer browses menu and orders through intercom
- Retrieve check by scanning a QR code or tapping NFC tag with mobile
- View check, split and/or add tip
- Collects food through usual drive-thru window when ready

Features	Benefits
Web app	Our web app requires no download. Just click, connect and pay.
Retrieve check via NFC or QR code	A choice of check retrieval options gives you the flexibility to design the user journey around what suits your customers and your brand. Whether it's pointing the mobile's camera at a QR code or tapping an NFC tag to initiate payment, we support multiple methods.
Split check	Let your guests split check by amount.
Add tip	Give your guests the ability to include a tip by percentage or amount.
Highly scalable	We can deploy in high volume, multi-location businesses across the world meaning you can scale with stability and speed without concern.
Rapid deployment	Our comprehensive out-of-the-box functionality and seamless integrations allow us to deliver enterprise-wide solutions, quickly. (See below for supported integrations.)
Multiple brands	Manage multiple brands across multiple sites with ease.
Multi-language, multi-currency	Remove the language barrier and currency confusion by offering a globalised solution for an increasingly globalised world. Languages and currencies can be added on request.
Support	Have our friendly and helpful Customer Success team to hand.

Integrations

QikPay is integrated with many third party platforms. Current integrations include:

POS

Payment

QikServe is adding more partners all the time. If you don't see the integration you need, come and talk to us about your requirements.

Data flow
