

# QikOrder: Kiosk

Customer journey walkthrough

## Screen 1: Attract screen

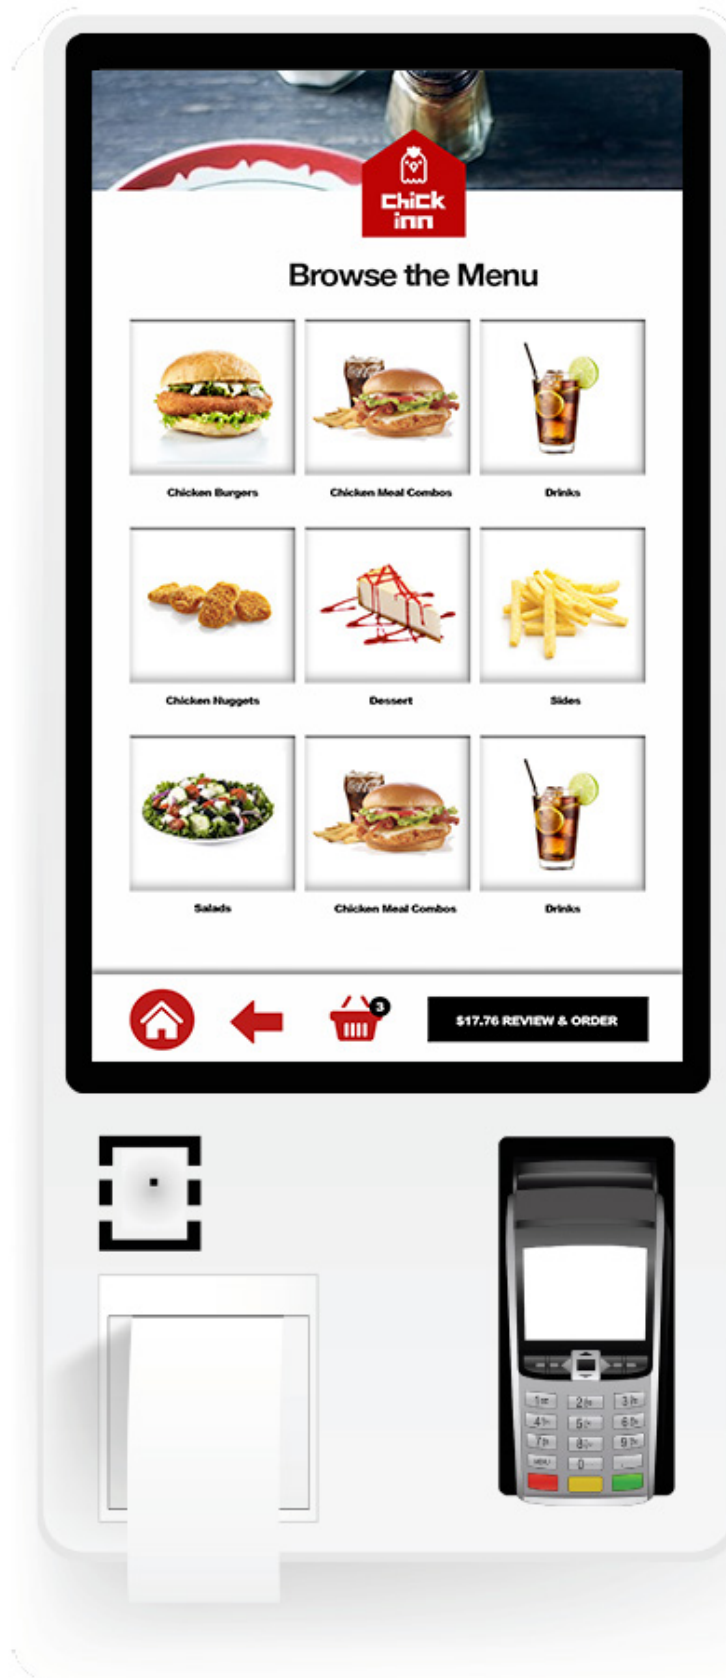

Kiosk displays multiple rolling screens to attract guests and promote deals such as limited time offers (LTO). Guest taps any screen to start.

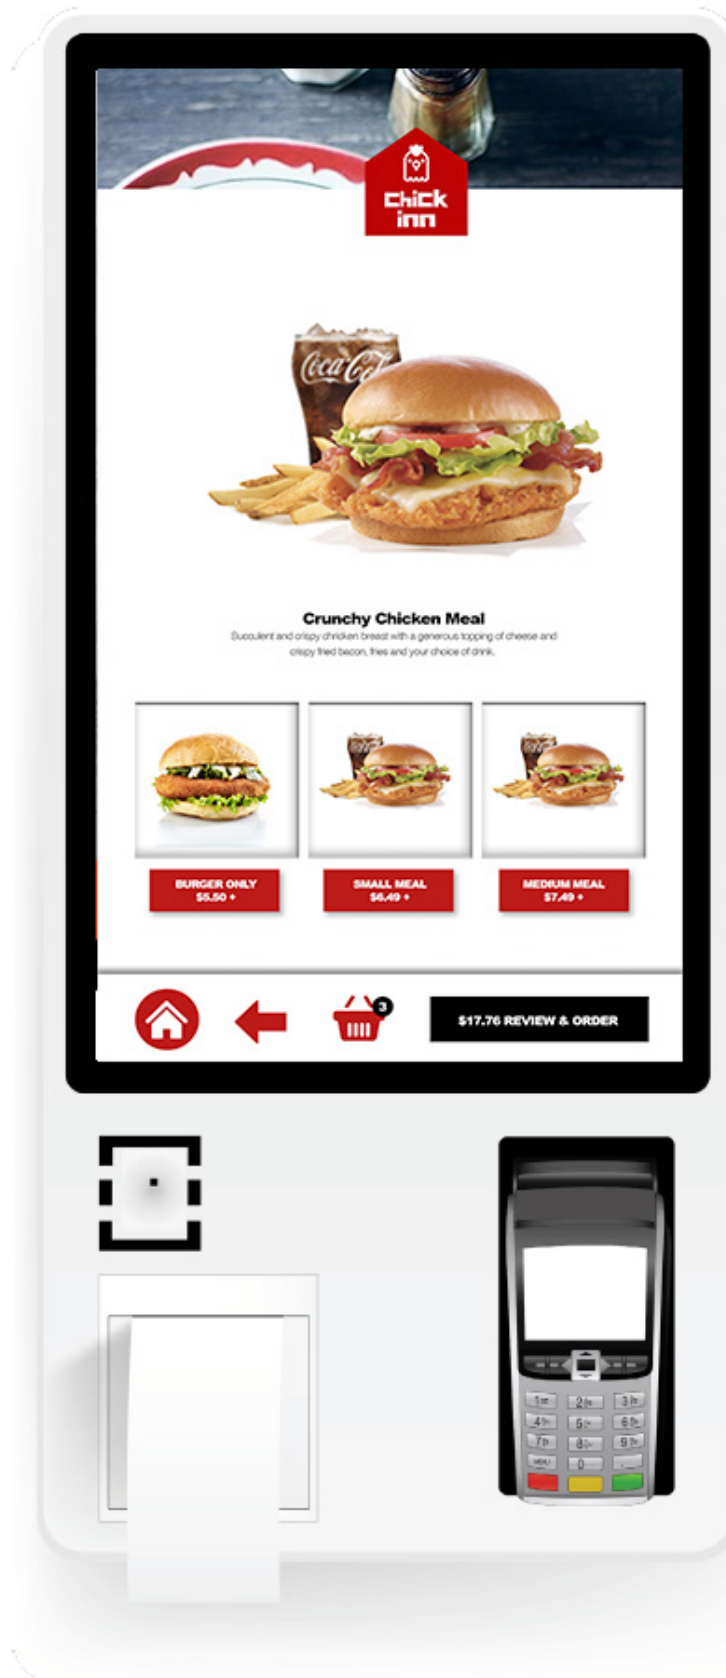

## Screen 2: Menu home

Guest views the main categories from the menu.

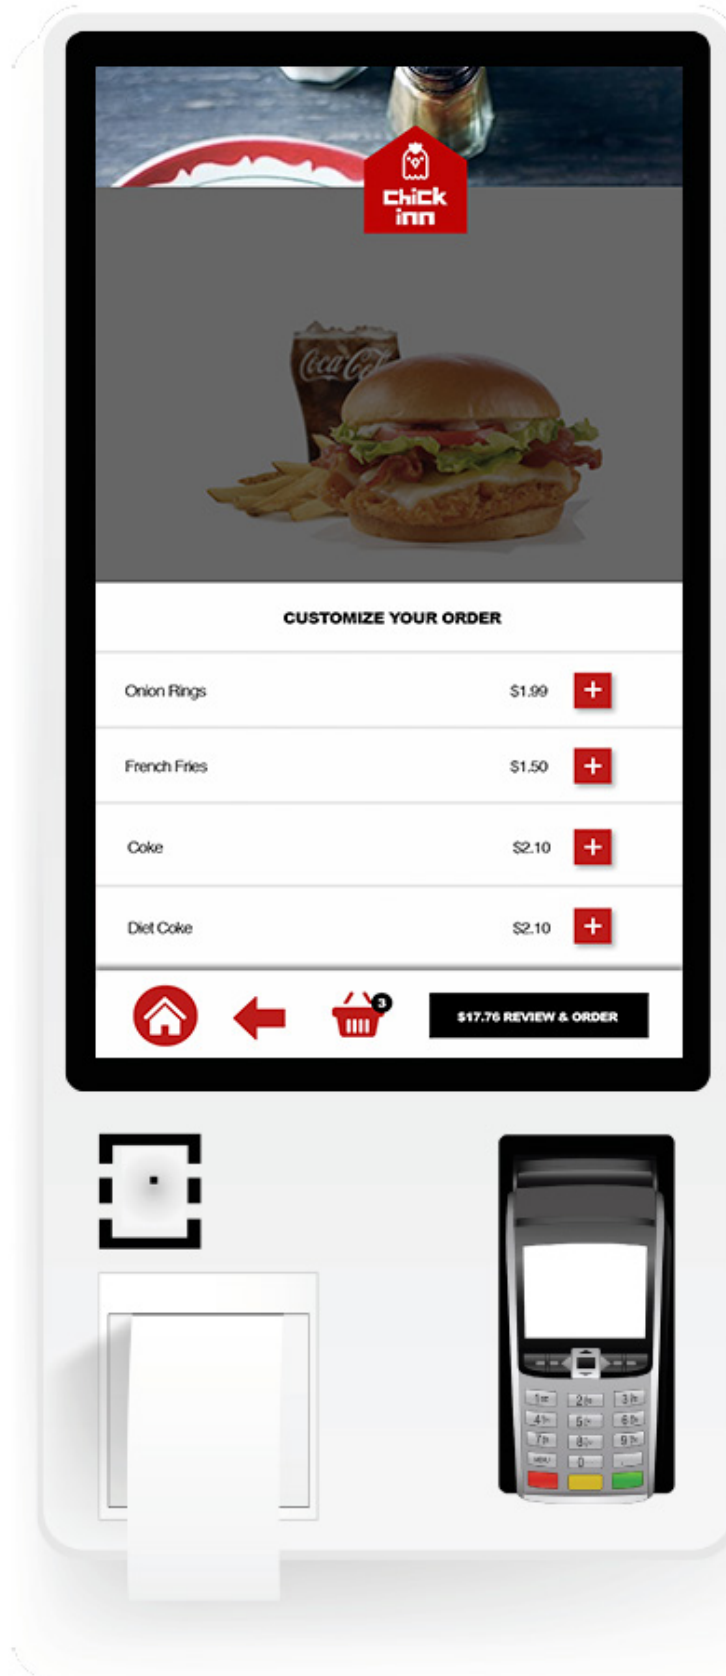

## Screen 3: Menu item

Once a category is selected, the guest is taken to the menu item page for that category.

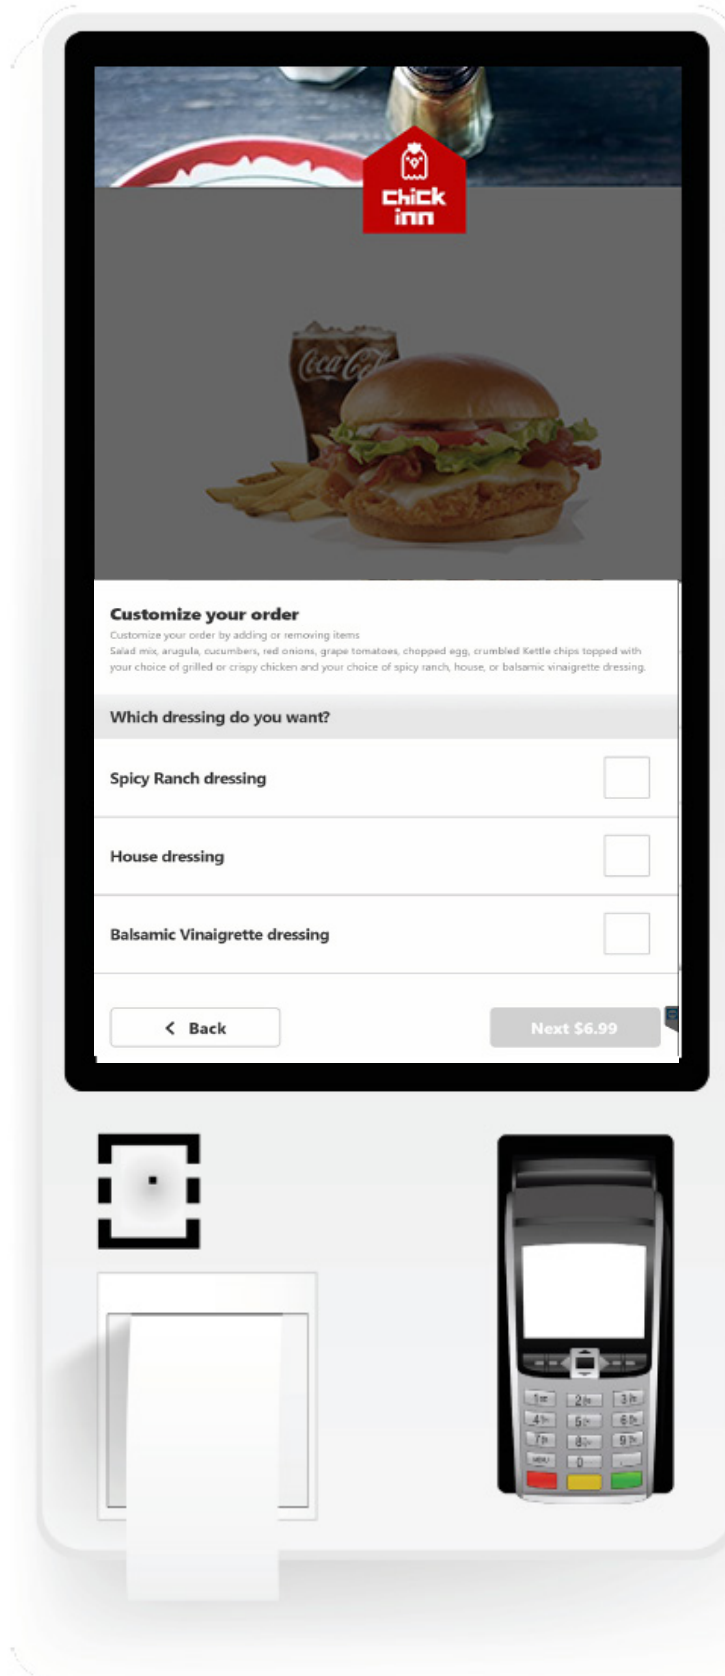

## Screen 4: Upsell

The guest is prompted to customize their order by picking from a list of relevant upsells.

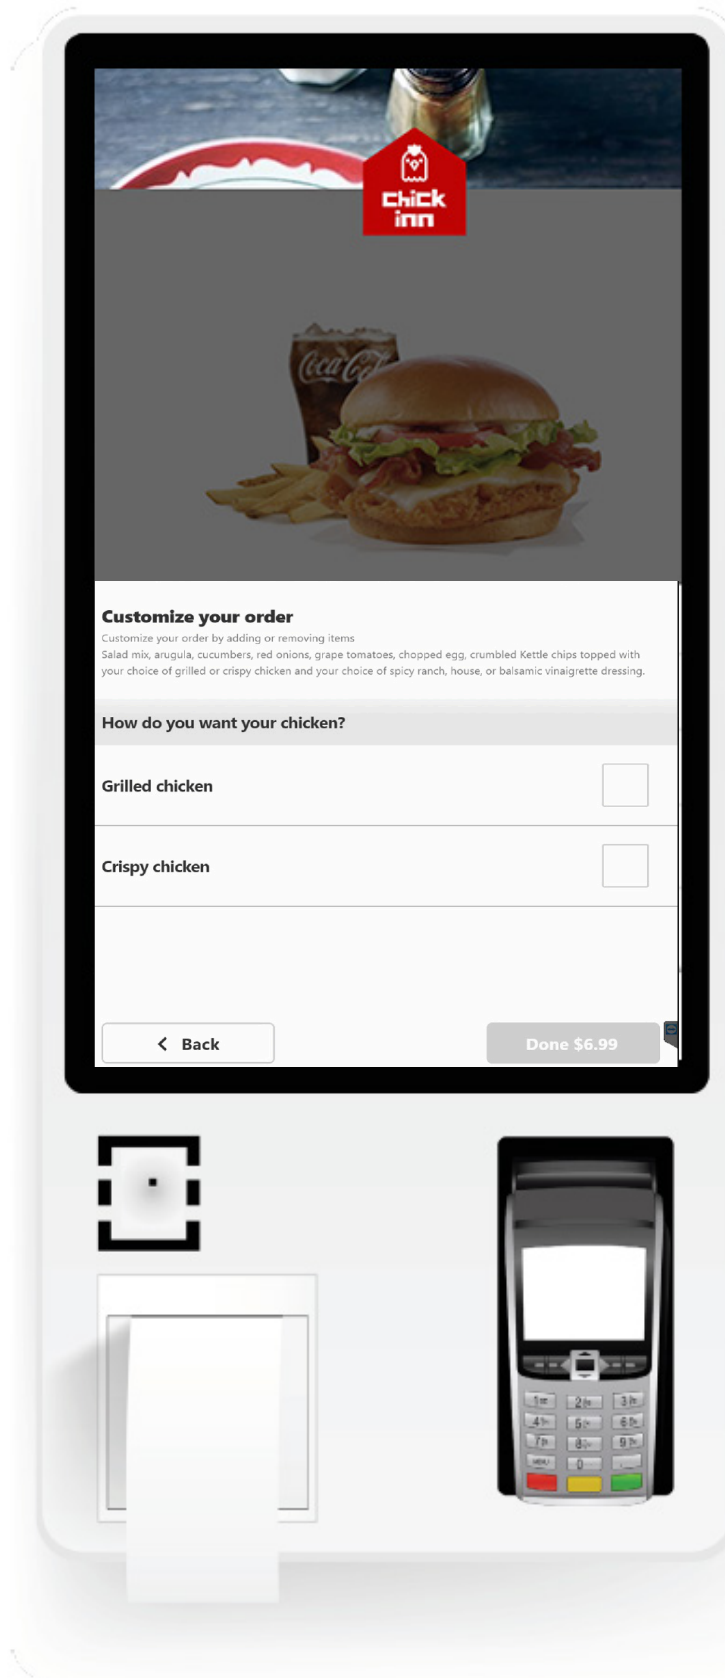

## Screen 6: Complex menu items

The guest can specify preferences for items that require additional information.

## Screen 7: Modifiers

The guest can specify modifiers to customize their meal.

## Screen 8: Review order

Guest checks their order and can either add to it or check out.

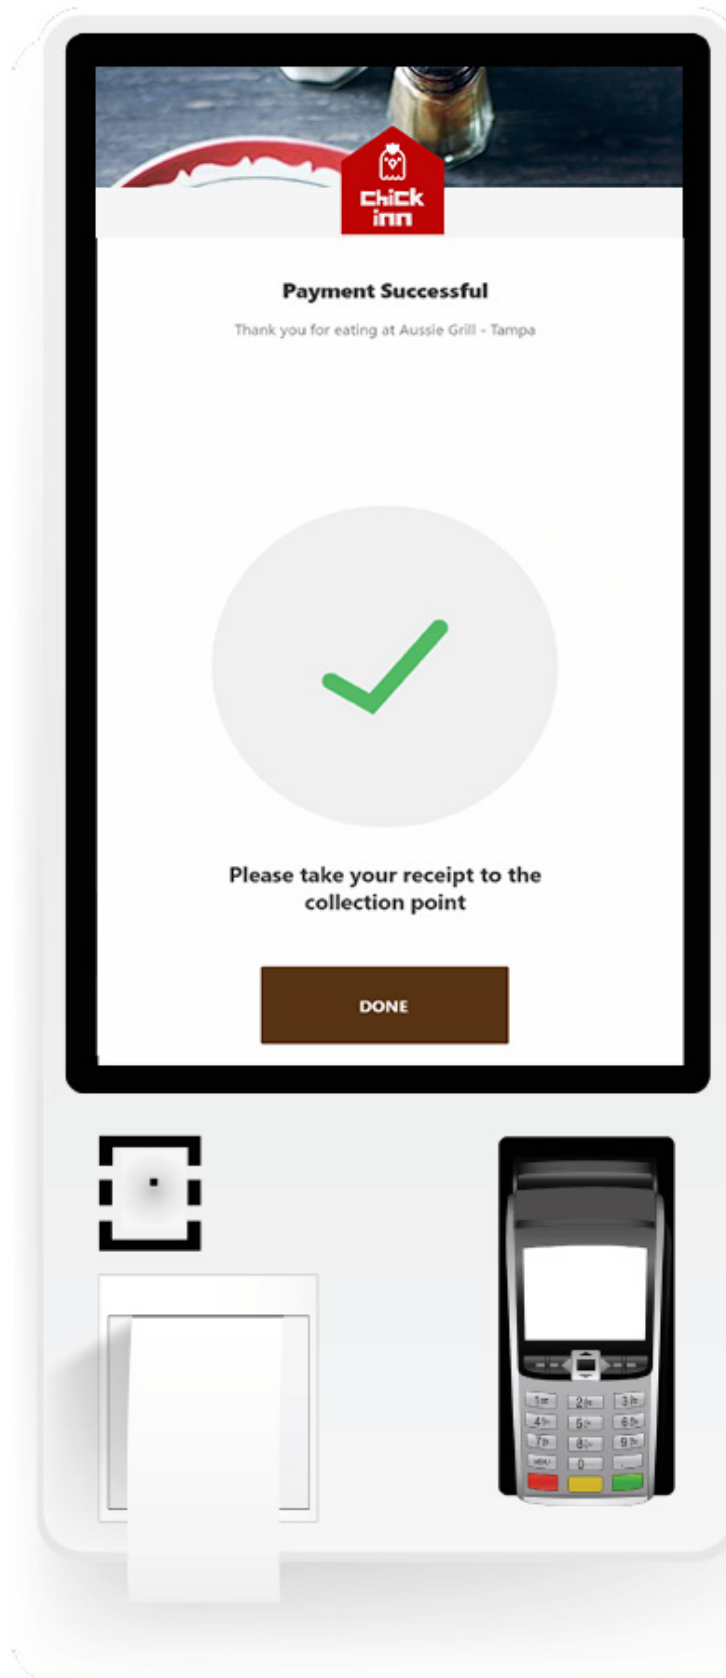

## Screen 9: Payment

Guests pay using their preferred payment method.

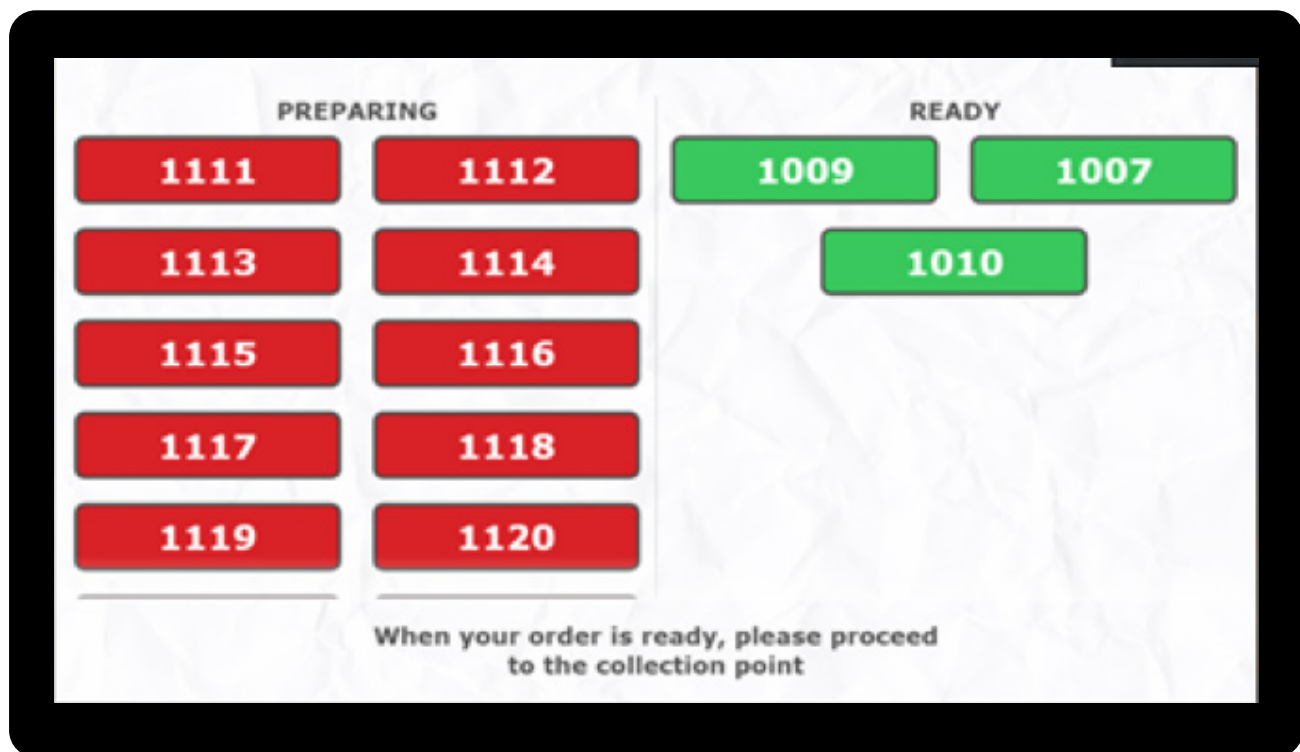

## Screen 10: Confirmation

Guest is show confirmation page where a receipt is printed and instructions are given to collect their order.

## Order Ready Board

Guests can see at a glance what status their meal is at with order ready boards located near the collection counter.

# ORDER HERE

Our queue-busting kiosks let your customers browse, order and pay using an interface that brings your menu and brand to life.

Transform your customer experience, streamline operations and reduce pressure on busy staff with an eye-catching, high definition, visually rich self-service experience. We provide the fastest way to roll out a highly scalable kiosk solution. Our expertise in user experience design incorporates powerful up-selling and cross selling features that deliver real results.
