Simple to Use Language Learning App

*"I love this app because it's **free (with my library)**, simple to use, and easy to progress through lessons. It really makes me feel like I'm learning Spanish, but not only that, I'm learning vocabulary to use in the real world."*

- Bananasbee, May 23, 2020

Great learning tool!

*"I found out **my library offers Mango for free**, and I love it. I appreciate how easy it is to backtrack, since some apps don't let you for whatever reason without restarting the course."*

- Doug4751, May 26,2020

Best language learning app ever

*"This is the best app I have found yet to learn a new language. It begins with basic conversational language, before getting deeper into other words and phrases. You learn by listening and speaking, rather than reading and translating. Definitely check to see if **your local library allows you to get a free subscription.**"*

- Detective Inspector Me, April 21, 2020

Best Language learning app

*"After trying many other apps like Rocket Languages which is good, Pimsleur more comprehensive than Rocket but only audio and others, I finally found one that is complete. Mango Languages is like Pimsleur on Steroids. I find it engaging and I have learned a lot. **Thank you Public Libraries for making this program accessible for free.**"*

- Detective Inspector Me, April 21, 2020
