STRINGENT BENEFITS

- Convenient, easy to handle, one use rate product in a convenient dry formulation.
- Non-restricted use herbicide featuring a built-in safener for crop safety and flexibility.
- Broad-spectrum contact and long-lasting residual control on broadleaves & grasses.
- Cost effective chemistry designed to be a component of a weed management system.
- Excellent choice for fall or spring burndown program, especially no-till acres.
- Great product for rotational sensitive crops and an excellent addition to any Non-GMO corn program.
- Additional MOA to add to a pre- or early post-application of Vilify, Rixa, Evinco or Optero to control resistant Lambsquarter.
- Flexibility to apply up to V7 or 20-inch corn. Best results occur when applied to corn 12 inches or less and if weeds are small and actively growing.
- Reach back with ½ inch of rain. Rainfast in 4 hours.
