### ENROLL THOUSANDS OF EMPLOYEES QUICKLY

Employee enrollment is quick, secure, and requires no sign-on process.

### MONITOR FOR KEY SYMPTOMS OF COVID-19

Employees regularly enter symptoms from their personal health devices into a secure application.

### DASHBOARD AND SYMPTOM REPORTS

Detailed view of your employees' metrics and symptoms, progressing trends, and individual status; document notes and conversations for each person enrolled in monitoring program.

### NOTIFY HEALTH OFFICIALS OF PATIENT STATUS

Notify Human Resource administrators and public health officials when an employee's time in quarantine has lapsed with no symptoms present.

– Measure –

Body Temperature

Oxygen Saturation

Difficulty Breathing

Cough Frequency

# Remove Barriers with Rapid RPM Deployment

## FOR EMPLOYERS

- “ Standalone web application eliminates integration needs
- “ Easy, quick registration – capturing basic contact and demographic data with ability to flag high-risk individuals
- “ Monitoring dashboard with automated alerts to manage progressive trends in symptoms and biometrics

## FOR EMPLOYEES

- “ Workflow to help employees request delivery of personal health devices (e.g. thermometers and pulse oximeters)
- “ One-time email consent form to enroll person in program
- “ Simple, secure process for employees to enter data through-out the day, with no sign-on required

Secure SMS Text Message or Email for Quick Data Entry
