

A WORLD OF OPPORTUNITY AWAITS FOR US ENTERPRISES IN JAPAN

BRING YOUR INNOVATION TO ONE OF ASIA'S FASTEST-GROWING MARKETS

THE 'ASIAN CENTURY' IS HERE – ARE YOU READY?

In this era of uncertainty, reducing risk by expanding to new markets is of increased importance, and the robust economy of Japan offers unrivaled opportunities for US businesses. Asia's share of global GDP is expected to surpass 50% by 2040 - making it the world's largest market. The IMF attributes APAC's boom to a "winning mix of integration with the global economy via trade and foreign direct investment, high savings rates, large investments in human and physical capital and sound macroeconomic policies." The great opportunity of this diverse region - Japan in particular - comes with equally diverse regulations and challenges, making it important to choose the right partner to help navigate this landscape.

"Tricor has been a critical partner over the years. We were serviced around the clock and provided clear cut guidance to avoid us ever being out of compliance. They are professional and super responsive. It is important to note the 10,000 miles between us from NYC to Australia, yet it feels like they are right next door!"

Sprinklr

"Tricor is always reliable, accurate and efficient. Since 2010, they have provided excellent business support for Red Bull in Hong Kong. Not only are they fantastic business partners, but they are a vital bridge between our local business and our global team."
