Why Is CloudAlly Backup a Must-Have for Your Business?

Microsoft 365 data loss is prevalent and the repercussions are devastating. Mitigate the cost and impact of a breach with seamless data recovery. Easily and accurately recover from data disasters with unlimited, automated, and secure backup.

Gartner and Forrester caution “No backup is plain dangerous”. Microsoft itself recommends third-party Microsoft 365 backup. Build business resiliency by eliminating the risk of data loss and facilitating seamless business continuity. All while complying with regulations that mandate shared responsibility of data and assured recoverability.

RECOMMENDED BY

MICROSOFT

“If you want to support recovering messages beyond 30 days, you would need to use a 3rd party service for the backup... Point in time restoration of mailbox items is out of scope for the Exchange Online service.”

REGULATORY LAWS

“Restoring the availability of and access to personal data, in the event of a physical or technical security breach.”

TOP ANALYSTS

Gartner

“Back up SaaS data or risk losing customers, partners, and employees. Stop leaving the door open to data loss, and start proactively protecting cloud data before it’s too late.”
