

 **Salesforce Backup**

Comprehensive | Secure | Enterprise-grade

- ✓ **Unlimited AWS Backup, One-click Restore:** Recover reliably and seamlessly from data loss.
- ✓ **Stringently Secure:** Ensure regulatory compliance.
- ✓ **Comprehensive and Feature-rich:** Improve your distributed workforce’s productivity on the cloud.

## Key Benefits

### BACKUP: Comprehensive Salesforce Protection

- Automated Daily Backup of All Salesforce Data, Metadata, and Chatter Feeds - Standard Objects, Custom Objects, Attachments, Reports, Dashboards, Emails, Triggers, Workflows, and, Classes
- 3X Backup Frequency on request
- BYOS Backup to your own AWS/Azure storage to comply with local regulations
- On-demand Backup
- Single Repository Backups: Store all backups in your organization’s repository
- Minimize Salesforce API usage with only delta changes being fetched daily; Auto-pause backups when API limit reached

*“CloudAlly provides Secure, Reliable, and Simple Data Backup for Salesforce”*

## RECOVERY AND EXPORT: Unlimited and Flexible Data Recovery

- Unlimited Point-in-time Restore with historical snapshots/versions
- Granular, object-level restore of metadata by type
- Granular restore of data by record
- Cross-org and Production-to-Sandbox Restore
- Salesforce Data Anomaly Detection and notification about activity red flags that could indicate problems such as potential data loss or atypical changes
- Sandbox Seeding: Test applications or processes by replicating all or a part of production data and metadata. Saves time, effort, and eases testing
- Compare data/metadata across backups and/or production data: Display only changed data, to pin-point the exact data that was altered
- Advanced search capabilities for real-world scenarios such as by RecordID, metadata object types, and last modified user

## SECURITY: Stringent and Audit-ready Credentials

- Secure Amazon S3 data storage for high availability during Salesforce downtime
- ISO 27001, HIPAA, and GDPR compliant
- OAuth, OpenID, MFA/2FA, Okta support
- Choice of global AWS data centers in Australia, Canada, Germany, Ireland, U.K., and U.S.
- AES-256 data encryption at rest and HTTPS in-transit
- Immutable Storage-Object-Lock (optional) for ransomware recovery
- 7-day recovery grace period for deleted backups
- 99.9% Uptime / Availability SLA

## USABILITY: Intuitive UX and Advanced User Management

- Single Dashboard for backup of all your SaaS platforms (Salesforce, Google Workspace, Box, and Dropbox)
- Backup history visualization to easily monitor data changes
- Dedicated Customer Support Hub with tutorial videos
- Out-the-box setup and zero maintenance effort
- Filterable Audit and Activity Log with drill-down view of all Exports, Restores, and Backups
