Utility Bill Management

Less data gathering. More action.

Utility Bill Management

JadeTrack

Less data gathering. More action.

Spreadsheets are useful for many things, but they fall short when it comes to tracking energy and sustainability programs. Gain clarity with accurate and timely utility data.

JadeTrack's cloud-based software helps you improve efficiency with utility bill management to:

✓ **Go Paperless**   Avoid paper waste by sharing information electronically and eliminating manual data entry.

✓ **Automate Data Access**   Save time and eliminate errors with access to portfolio-wide cost and usage data.

✓ **Increase Visibility**   View energy, water, waste, emissions and custom sustainability data in one platform.

✓ **Simplify Reporting**   Analyze usage and costs with interactive charts, graphs, and reports.

✓ **Benchmark Success**   Sync utility bill data with ENERGY STAR Portfolio Manager® for performance comparisons.

✓ **Maximize Profits**   Identify opportunities to reduce utility costs and easily audit inaccurate charges.

JadeTrack

Utility Bill Summary

Asset	Area (ft²)	Electric Grid kWh	Electric Grid Cost	Cost/k
Office	303,255	2,438,160	$240,974.82	$0.10
Retail	149,028	1,193,091	$142,348.79	$0.12
Bank	316,177	2,898,351	$331,853.10	$0.11
Museum	306,834	3,311,666	$360,307.29	$0.11

What can you do with utility bill management?

From facilities to finance, JadeTrack's easy-to-implement solution enables busy professionals to monitor electric, gas, water, and waste data at a glance. That means more freedom to focus on value-added activities and data-driven decision making.

+ View cost and usage data across all utilities, and drill down to a specific meter

+ See summary statistics like cost per square foot and 12-month spend

+ Review potential errors or areas of concern

+ Automatically update ENERGY STAR® score and EUI for eligible facilities

+ Navigate your portfolio with a custom hierarchy

+ Get digital copies of invoices with line-item details, when available

Ohio | Department of Rehabilitation & Correction

90% less time spent manually collecting data

The Ohio Department of Rehabilitation & Correction uses JadeTrack's utility bill management software to automate the collection of more than 300 accounts in 27 locations, streamlining both the collection and analysis components of their utility bills. With higher quality reporting and deeper insights, ODRC leverages its dedicated JadeTrack success manager and is now saving more than 90% of the time previously spent collecting data manually.

What customers are saying...

"A big thank you to the JadeTrack team for helping Wendy's and our franchisees participating in the Better Buildings Challenge."

– Scott Moline, The Wendy's Company

"As soon as everything was in place, we immediately started seeing savings. A year later, and the results speak for themselves. They are substantial!"

– Chris Fairchild, Sarnova

"We have 1,089 accounts and I could not track these accounts without this system. I absolutely love that it connects with Portfolio Manager. It is nice that we can see actual bills for two of our main utilities."

– Samantha Schneider, The City of Columbus

"One of the biggest benefits of the JadeTrack platform was the ability to easily integrate real-time data for utilities such as electric, gas, and water. This additional data acted as another layer of information for our team and clients allowing us to identify, analyze, and solve issues before they turned into costly problems."

– Richard Davis, Limbach Engineering & Design
