5 CYBER FIXES

FOR 5 RISKY ONLINE BEHAVIORS

New Horizons®
Computer Learning Centers

**01**

PASSWORD FAILS

Use a unique password for all applications and services used regularly.
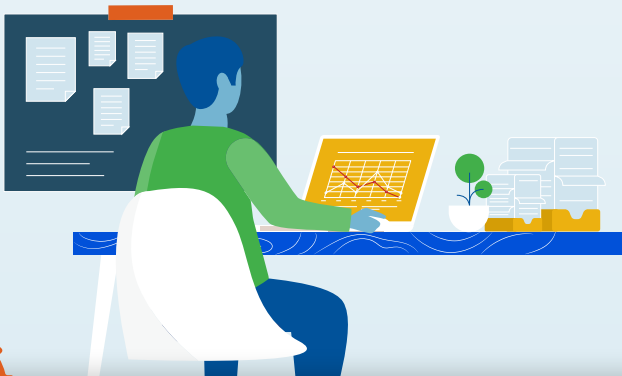

02

IDENTITY THEFT

Cover your tracks wherever you go and erase contents on any device before discarding.
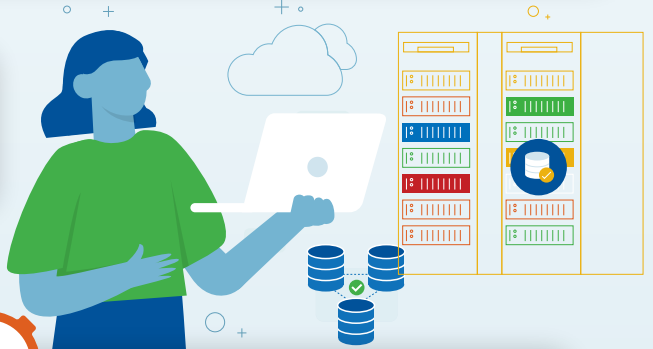

03

SOMETHING PHISHY

Learn the tricks of the phishing trade and be on the lookout for fake logos and URLs.

04

BACKUP BASICS

Use an automated backup solution that backs up to a local target and the cloud.

05

DATA ENCRYPTION

Make sure the data you store uses at lease 128-bit encryption for data.
