North Charleston, SC 29405

Area of Expertise

As a Property Manager for Colliers | South Carolina, I create and implement property management plans with clients for their office, retail and industrial real estate holdings. I develop and manage financial budgets and client reporting while delivering physical stewardship to the property.

I have a passion for helping people and in this role, I am able to help our clients meet their financial goals. I am analytical and a problem-solver so my clients can expect that I will work to increase their revenue while controlling expenses.

Community Involvement

I love Charleston and especially the unique architecture found in different areas of the city. I have a 3-year-old son and we enjoy spending time with family and engaging in outdoor activities.

I enjoy volunteering for great causes. Recently, I have been involved in planning events for the Roc Solid Foundation, an organization that works to build hope for every child and family fighting pediatric cancer.

Education or Qualifications

B.S., University of South Florida

South Carolina-licensed real estate agent – REALTOR®

Florida-licensed real estate agent – REALTOR®

Specializations

Real Estate Management Services

Affiliations or Memberships

NAR - National Association of REALTORS®

Business and educational background

I have a background in finance, business administration, property management and real estate sales. I am bilingual and speak Spanish fluently.

After graduating from the University of South Florida with a finance degree, I was a financial analyst specializing in trade settlements before working with a private real estate investor for ten years. When I moved to Charleston, I worked in residential real estate sales for two years before joining Colliers.
