Area of Expertise

As CFO, I provide detailed accounting services and financial reporting for all three of the Colliers | South Carolina offices and LCK as well as our property management clients.

I strive to provide an exceptional accounting and finance platform for both Colliers and our clients. I believe that I bring a strong set of management and technical skills to the company to provide that platform. Client service is a top priority at Colliers, and it's exciting to be a part of that service model. There's never a dull day at Colliers and it's very gratifying to see my work directly impact the success of Colliers and our clients.

Community Involvement

I serve on the Board of the SC Independent Colleges and Universities (SCICU), a non-profit organization that works to encourage the higher education and leadership of people in South Carolina. I am also a 2013-2014 Leadership South Carolina graduate, 2013-2014 Liberty Fellowship Nominee and a 2008 Graduate of Leadership Columbia and have served as an executive committee member for the organization since 2009. In the past, I have been the Treasurer and Executive Committee Member for both the Lexington County Sheriff's Foundation and Columbia Opportunity Resource (COR).

Education or Qualifications

Bachelor of Science, Clemson University, 2001
Post-graduate studies, University of South Carolina, 2003

Finance and Accounting
Executive Leadership

Affiliations or Memberships

AICPA – American Institute of Certified Public Accountants
SCACPA – South Carolina Association of Certified Public Accountants
SCCIA – South Carolina Captive Insurance Association
ISACA – Information Systems Audit and Control Association

Business and educational background

Prior to joining Colliers, I had over twelve years of public accounting audit and consulting experience, serving clients both nationally and internationally. I began my accounting career as an intern with Bauknight Pietras & Stormer, P.A., an accounting firm in Columbia, SC. After graduation, I was hired in their audit and consulting department where I became a Senior Manager. I enjoyed my work, but was looking for a position where I could focus my talents towards the success of a single enterprise. Transitioning to Colliers, I found that my values lined up perfectly with the company's and knew it was a right fit.

Professional Accomplishments

In 2018, I became a shareholder of Colliers International | South Carolina.
