Clemson University Real Estate Alumni Society (CUREAS)

Area of Expertise

I am a Vice President with Colliers in the Greenville and Spartanburg offices. I am a member of the Upstate industrial team along with long-time real estate professionals, Garrett Scott and John Montgomery. Our team specializes in the needs of industrial landlords and occupiers throughout the Southeast.

I come from a commercial construction background with years of experience in the commercial sector working on projects including K-12, office and institutional. I also have significant renovation and retrofitting experience. My construction background allows me to assist occupiers with their building specifications and advise them during the build-to-suit and new construction process. For developers and investors, I am well-equipped to advise on construction-related issues involved in tenant upfits, value-add projects and new development.

Professional Accomplishments

In addition to being a member of the Urban Land Institute, I also received the American Institute of Constructors Level 1 certification and am ARGUS DCF certified.

As a top industrial leasing broker, I have been recognized as a CoStar Power Broker in 2016, 2017 and 2019. I received the Colliers 2017 Rising Star Award and the Top 10 Producers Award in 2017, 2018 and 2019. I am also the recipient of the Colliers | South Carolina 2018 Transaction of the Year Award.

I also serve as current President of the Clemson University Real Estate Alumni Society (CUREAS).

Business and educational background

Prior to my role at Colliers, I worked for M.B. Kahn Construction, where I was part of a project team that built more than one million square feet of commercial space in Columbia and Greenville. I hold a Bachelor of Science degree in Construction Science and Management and a Master of Real Estate Development degree, both from Clemson University.
