## Dillon Swayngim

### Area of Expertise

I specialize in industrial and flex properties through landlord and tenant representation as well as industrial investment sales.

I define success in my work as going above and beyond for clients and when the projects that I work on produce a substantial impact on local and regional economic development. My client roster has included large companies such as Amazon, institutional investors and small local businesses. Each of my clients are treated in the same manner as they expect responsiveness, professionalism and market expertise, and I take pride in being able to deliver each for them. Being able to identify operational inefficiencies and identify solutions for my clients is one of my biggest assets.

### Professional Accomplishments

Since 2016 I have advised landlords and tenants in millions of square feet of industrial transactions. I am a multiple-time Costar Power Broker and named a Colliers International Rising Star Award recipient in 2020.

### Business and educational background

I graduated from University of South Carolina Upstate with a business degree and a concentration in economics and finance. During college, I interned with and eventually worked for a local industrial real estate firm which sparked my interest in commercial real estate and specifically with industrial properties.

### Community Involvement

It is exciting to watch institutional and foreign investment grow in our communities and to be a part of that through my work.

I am a member of the Spartanburg Young Professionals, a part of the Spartanburg Chamber of Commerce that focuses on social and leadership development, and United Way of the Piedmont's Young Leaders Society. I also enjoy volunteering through Meals on Wheels.

In my spare time, I enjoy woodworking and spending time with my wife and daughter partaking in activities such as traveling, hiking and running.
