

Fashion and Sustainability equipment list

Here is the list of equipment you need to order for Fashion and Sustainability studio units, **from Stage 2 onwards**. The equipment is compulsory for completing the tasks in your studio units and is specific to the industrial machines in our George St studio. The kit represents industry standard equipment, and should last you well after your course if well looked after. We have arranged for a student discount from wholesaler and local industry supplier M. Recht, who are located in Collingwood, just a short walk from our George St Campus. The cost of the kit is \$214.53, which is a saving of approximately \$100 from the retail price.

How to order:

1. You can order online from mrecht.com.au
2. Copy and paste the item code from this spreadsheet into the search bar
3. Make sure to cross reference the item with the description to ensure you have the correct items (some are straight forward, but items like needles are a little more complex)
4. Once you have included all the items in your cart click checkout
5. At checkout: First, select **student** account type > then **Australian College of the Arts** > then enter **AUSCOLART2014** in the section that says school ID to claim your student discount
6. Select the 'Pick up at M. Recht' option if you would like us to pick it up for you to collect at Collarts at the start of the next trimester
7. Finalise payment

Item code	Item description	Quantity	
RULER/GRM	50cm Grading ruler	1	
RULER/MRA1:5	Fifth scale ruler	1	
TRACINGWHEEL	Tracing wheel	1	

TM/MRA/P Or TM/MRA/F	Tape measure	1
