

The COVID-19 pandemic is unprecedented. To better understand the impact on dental practices, the ADA Health Policy Institute launched an innovative tracking poll. For the initial wave over the week of March 23, 2020, we invited nearly 70,000 dentists from across the U.S. to participate in our poll and received over 19,000 responses.

Dentists were also invited to join a panel in which they will complete a survey every other week; over 13,000 have opted to participate. Beginning January, 2021, the survey will be completed on a monthly basis. The number of respondents in each wave can be found at the end of this report.

Below are the latest results from this study, featuring time series for the weeks of March 23, April 6, April 20, May 4, May 18, June 1, June 15, June 29, July 13, July 27, August 10, August 24, September 7, September 21, October 5, October 19, November 2, November 16, November 30, December 14, 2020, and January 18, February 15, 2021. The report includes breakouts by DSO, practice size, and state.

For more information contact [hpi@ada.org](mailto:hpi@ada.org).

What is the current status of your dental practice?

ALL RESPONDENTS

- Open and business as usual
- Open but lower patient volume than usual

**PAY STATUS OF ASSOCIATES, EMPLOYEES, AND INDEPENDENT CONTRACTORS**

**[If non-owner dentist] Are YOU being paid this week?**

● Yes, fully    ● Yes, partially    ● Not being paid at all

**[If Not Being Paid at All] Are you currently receiving unemployment benefits?**

- Yes
- I've applied, but have not received any benefits yet
- No, my application was not approved
- No, I have not applied

**How many days' worth of the following PPE does your practice have at this time? (week of February 15)**

**ALL RESPONDENTS**

● 0 days ● 1 to 7 days ● 8 to 14 days ● More than 14 days ● Not sure

**BY DSO AFFILIATION**

**DSO**

● 0 days ● 1 to 7 days ● 8 to 14 days ● More than 14 days ● Not sure

**NON-DSO**

● 0 days ● 1 to 7 days ● 8 to 14 days ● More than 14 days ● Not sure

**How many days' worth of the following PPE does your practice have at this time? (week of February 15)**

BY PRACTICE SIZE

SOLO DENTISTS

2 to 9 DENTISTS

LARGE GROUP (10+ DENTISTS)

**How many days' worth of the following PPE does your practice have at this time? (week of February 15)**

**BY GEOGRAPHY**

**TOP 20 CITIES**

● 0 days ● 1 to 7 days ● 8 to 14 days ● More than 14 days ● Not sure

**OTHER URBAN**

**SUBURBAN**

**RURAL**

**How many days' worth of the following PPE does your practice have at this time? (week of February 15)**

**N95/KN95 masks (week of February 15)**

**Is your practice using virtual technology/telecommunications to conduct any of the following?**

All Respondents (% yes)

**Other, please specify:**

33 Responses

**Is your practice using virtual technology/telecommunications to conduct any of the following? (continued)**

**Other comments on teledentistry:**

17 Responses

Continue to communicate by phone in all the above and still without charge

I have found that telemedicine does not work well for dentistry

I never charged for talking to patients over the phone and feel it is inappropriate in private practice

I tried, but it does not work well for my practice and I no longer do it.

ILLEGAL IN TEXAS

It is not possible to do virtual dentistry especially on a new patient unless you are doing some post-ops

My patients can call my cell phone after hours and I am always there to call in an antibiotic if needed, but I did this before Covid and don't consider phone calls with established patients to be "teleconf", but I'm sure some offices would, and they would charge for it!

No teledentistry in TX

Office signed up for tele dentistry capability, but has not enacted it.

Only in about 10% of patients

Reimbursement for tele dentistry is problematic.

Teledentistry is illegal in Texas

Texas does not allow teledentistry

We are in Texas teledentistry not allowed which makes zero sense. And insurance reimbursement is awful even if we did

We tried teledentistry for two months, and our patients all preferred coming into the office.

We've been doing this all along we just didn't charge people because we are the providers!

not allowed in Texas
