

How to access site using the MSite Workforce App

Make sure Bluetooth is turned on

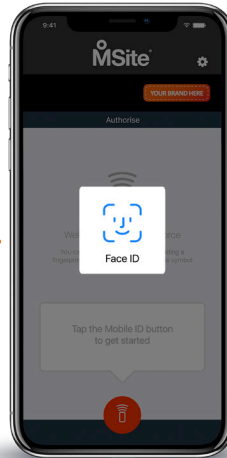

Make sure location services are turned on

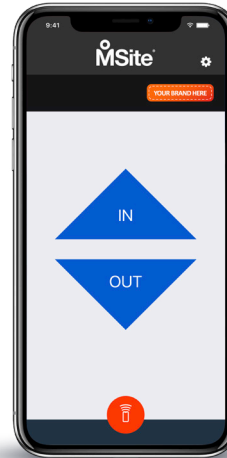

1

Open the MSite Workforce App & hold near fingerprint reader, **pressing the red button** (no need to hold)

2

When prompted, use biometrics on your smartphone (Fingerprint, face and iris) to enable contactless entry

3

Select if you are either entering or leaving site

4

Hold smartphone close to the reader (by the sticker) you may need to hold it in place for a few seconds
