Valuable insights for better clinical and economic outcomes

Happy Halloween!

Even though it's that spooky scary time of the year, there's absolutely nothing to fear. We're talking about evidence-based shock wave NOT magic or witchcraft.

And, now that we've ventured down this creepy path, want to know something that's even more frightening than being haunted by witches, ghosts and werewolves? The thought of your patients going elsewhere because you don't offer this technology. And they will!

As you know, the efficacy of shock wave is very real and proven. Read on to learn the more about EPAT/ESWT, the science and research behind it, the success your peers are having in getting their patients better faster, and how they've incorporated it into and grown their practices.

Ready to put your fears aside and invest in this amazing technology? Let's talk! On behalf of all of us at CuraMedix, I promise....we won't bite.

All the best,

Elise B. Hamann
Director of Sales and Marketing
