Research, news and marketing tips to help you grow your practice.

“Game-Changer!”

That's the term so many medical professionals, like you, have recently been emailing, texting and calling in to describe how they feel about shock wave and now EMTT.

So what is a game-changer? According to Merriam-Webster, a game-changer is defined as “a newly introduced element or factor that changes an existing situation or activity in a significant way.”

The key word here is “significant”. Not small, not gradual, not measured. We're talking big!

Medical professionals who have invested in and incorporated these innovative technologies are seeing dramatic results and loving how their patients are responding and improving. So much so, they're actually taking the time to reach out to us and thank us!

Want to learn more about these technologies and better understand the success others are having with shock wave and EMTT?

Let me know and I'll connect you with an expert on our team.

All the best,
Elise

P.S. Remember: we can still get you in at **No Payments 'til 2022!** [Email me today.](#)

Why should you purchase your device from and partner with CuraMedix?

Why Partner with CuraMedix?

Onboarding, training, education, service, support and more.

Our onboarding, training, education, service, and support separate us from the rest. As the leading US distributor of STORZ Medical shock wave and EMTT devices, we want to make sure our customers have a reliable and trusted resource they can look to as they bring on new technologies and expand their offerings.

That's why we've created a Partner Portal exclusively for our customers. Here you'll find patient brochures, posters, consent forms, stock images for your website and marketing, application brochures and videos, operations manuals, and more! We are constantly adding to and enhancing this amazing resource.

Bought elsewhere and not getting the service and support you were promised? We can help. Let's talk!
