

Matric Limited Environmental Policy

Matric Limited is a contract manufacturer of electronic assemblies, offering both turnkey and board level assembly. We are committed to protecting and preserving the environment by minimizing environmental impacts concerning our activities, products, and services. To accomplish this, Matric works towards:

- Reducing waste, preventing pollution, and minimizing the consumption of natural resources
- Complying with all applicable federal, state, and local regulations, and other industry and customer requirements relating to environmental protection
- Increasing the awareness of our environmental requirements among our employees to facilitate an understanding of the environmental impacts of their daily responsibilities
- Considering environmental issues and potential environmental impacts in all of our business strategies and initiatives.

Matric Limited is committed to continual improvement of our Environmental Management System and overall environmental performance. In striving to achieve these objectives, we engage in a rigorous planning process, and work with external partners such as our major suppliers, contractors, local communities and customers.
