Driving student success to new heights

As a higher education leader, you understand student struggles

Schools have more working parents, older adults, first generation, and low-income students than they used to

As student diversity grows, the need to provide support services also grows

The Attigo Suite can help students reach their goals by delivering the right support at the right time

Persistence and completion

GradReady

Comprehensive online student success curriculum

Through videos and interactive tools, students are empowered to succeed

College Cost Meter

Student debt letter correspondence

Present the financial aid and student loan information students need to make better enrollment and college financing decisions

Default management

Cohort Catalyst

Default prevention and loan rehabilitation support

Deliver expert counseling and support to federal student loan borrowers who struggle with repayment

Cohort Analyzer

Cohort data analysis

Significantly reduce the time you spend researching cohort data challenges

Training

SmartSessions

Training for higher education leaders

Gain valuable student success and professional development insight

The whole is greater than the sum of its parts

Each Attigo solution brings value to student success programming—but when combined their power to transform lives and achieve goals is exponentially greater
