

Attract & Retain Top Talent with Student Loan Repayment

Beat the competition by providing the fastest growing employee benefit.

Student loans are stressful regardless of income. They are a burden that impacts people's ability to save for retirement and pursue financial goals.

Co-Pay Partners® makes it easy for organizations to implement a student loan repayment assistance program that can reduce their employee's loan balance and the time it takes to pay it off.

Repayment assistance doesn't only benefit the borrower, it helps employers achieve important goals too.

Recruit & Retain

80% of millennials would strongly consider a job with a student loan repayment benefit over one without it.

Reduce Financial Stress

"It was super easy to register and sync my loans. I'm so thankful; this program takes a weight off my shoulders." — Patrick Z.

Build Affinity

54% of younger employees would prefer a student loan payment assistance program over a 401(k) plan.

Improve Productivity

80% of employees spend 12-20 hours a month dealing with their financial stressors at work.

Quick and Easy Set-Up

- Stress-free employee enrollment
- Real-time reporting through 24/7 accessible dashboard
- High-touch customer support
- Experienced partner with direct access to loan servicers

Employer contributions to an employee's student loans, up to \$5,250 annually, are **tax-free** through 2025.

Combine with other products to maximize impact
