High performing teams make you competitive

Companies with high performing teams are **twice as likely** to exceed:

- profitability, productivity, market share
- effectiveness and efficiency
- customer satisfaction ratings
- achievement of mission goals

Research shows that **IT Performance**—the ability to develop and deliver quality software with both speed and stability—**drives transformation from Low to High Performance**

DEVOPS RESEARCH & ASSESSMENT

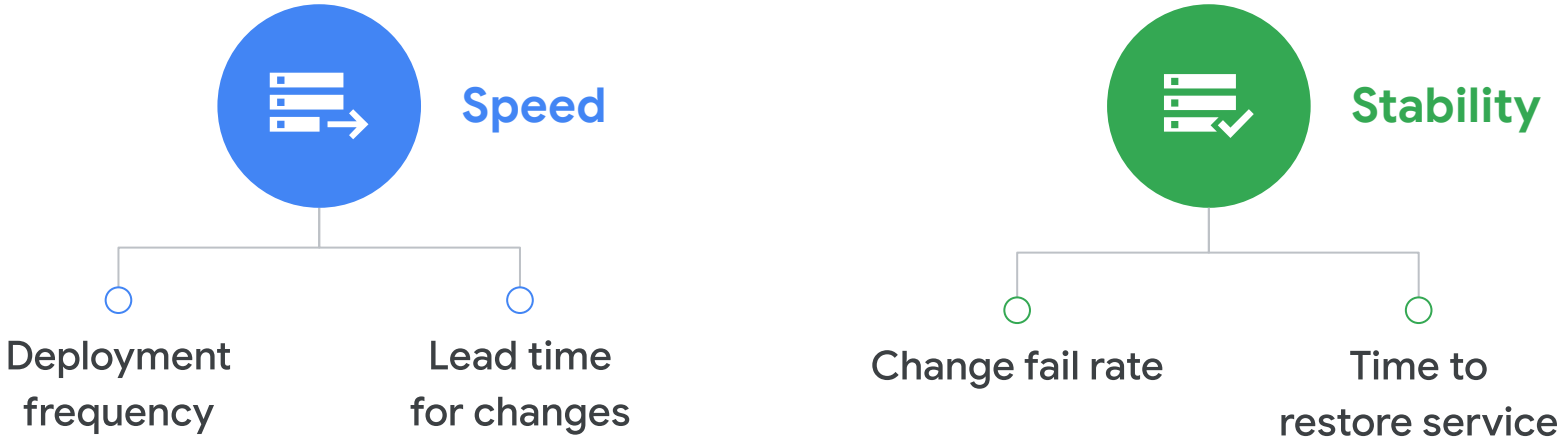
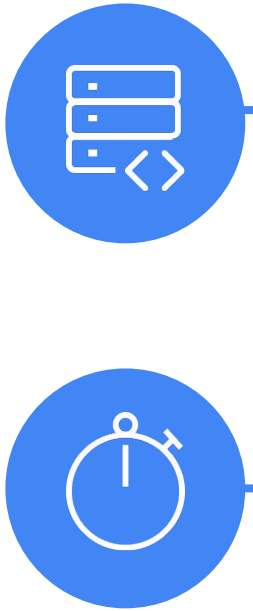
Software Delivery & Operations Performance

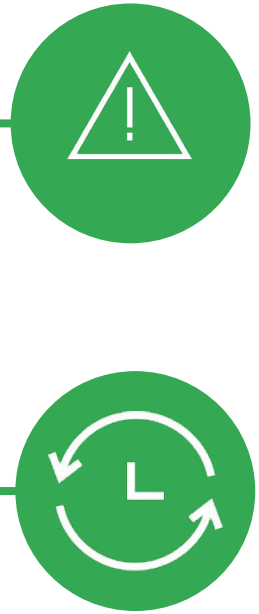


208 TIMES MORE
frequent code deployments

106 TIMES FASTER
lead time from commit to deploy



Comparing the elite group against the low performers, we find that **elite performers** have...



7 TIMES LOWER
change failure rate
(changes are 1/7 as likely to fail)

2,604 TIMES FASTER
time to recover from incidents

2019 Accelerate: State of DevOps cloud.google.com/devops

Organizations are increasingly adopting modernization solutions

59+%

Of the customers want to **modernize** (not all lift-shift) [2]

87%

of organizations will be running **containerized applications** [1]

9/10

enterprises today are operating in hybrid & multi-cloud environments [3]

>75%

of workloads **still on-premises** [4]

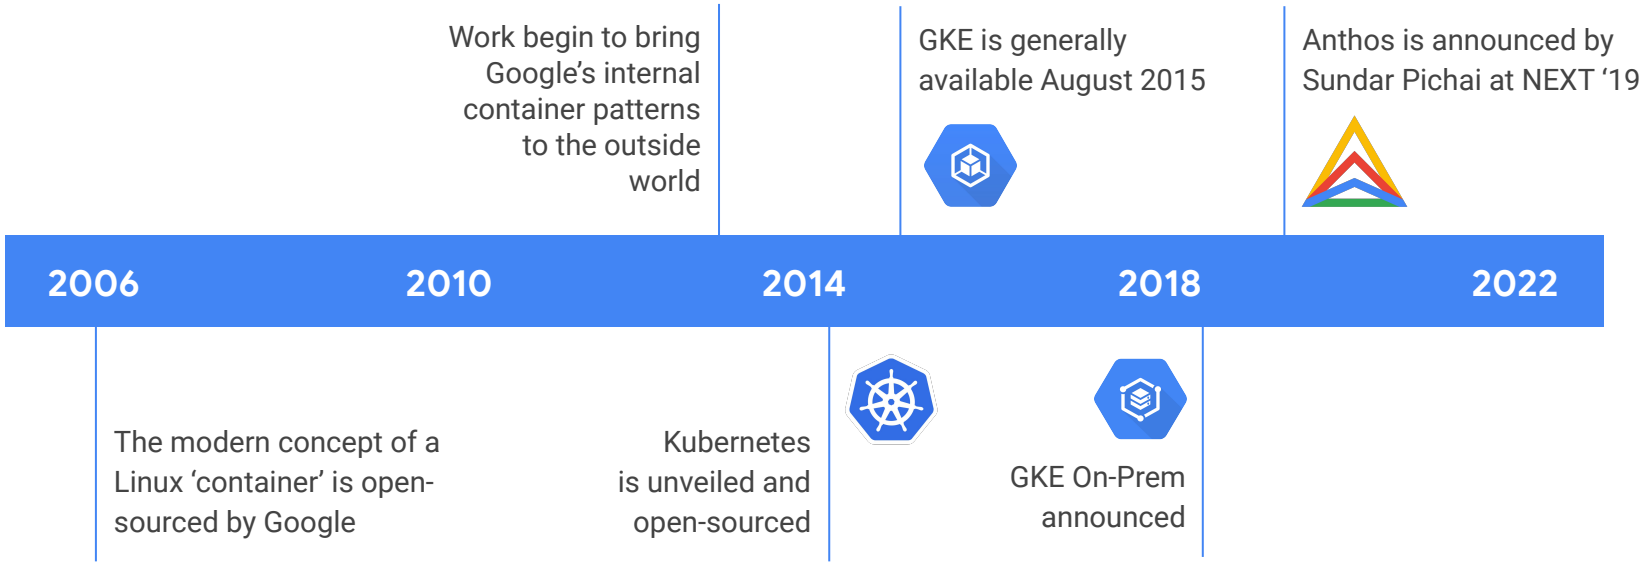
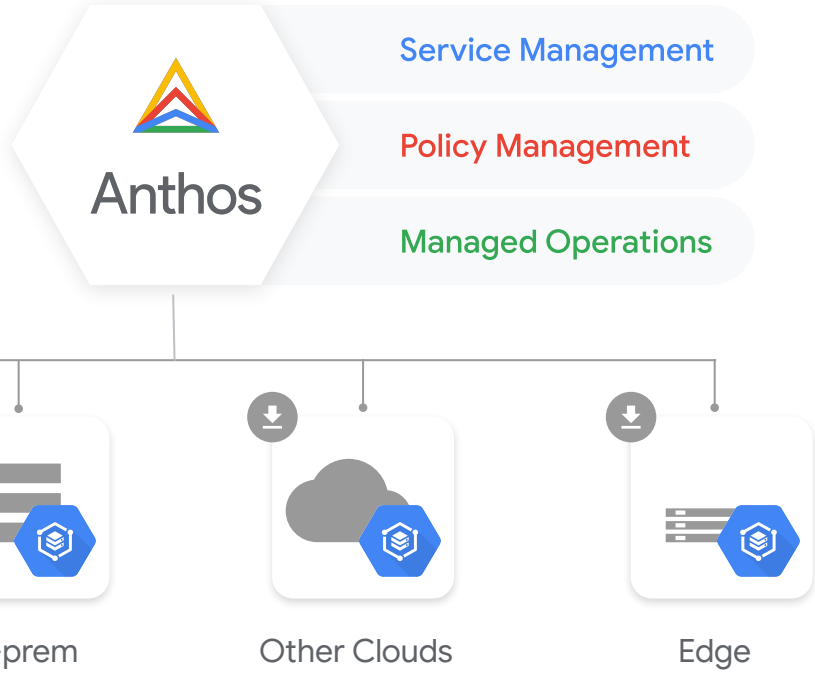
History of Containers at Google



Google Cloud

Anthos is our platform for application modernization



> Anthos' multi-cloud capabilities are so far **unique** in the industry

Forbes, April 2019

The benefits of Google Cloud's Anthos

Manage applications, anywhere

One consistent platform for modernize legacy apps and build new ones in a hybrid and multi-cloud environment

Deliver software faster

Build enterprise-grade apps faster with best-in-class managed Kubernetes and serverless technologies

Open

Achieve application portability with open APIs without the fear of lock-in

Reduce TCO

Realize immediate cost savings through improved resource utilization and managing complexity

Bring analytics and AI service closer to your data

Run powerful hybrid AI and multi-cloud data analytics on Anthos closer to where your data resides.

Automate security

Leverage a programmatic, outcome-focused approach to managing policies
