

# VMware Anywhere Workspace

# Shift from Remote Work to Anywhere Organizations

# Shift from Remote Work to Anywhere Organizations

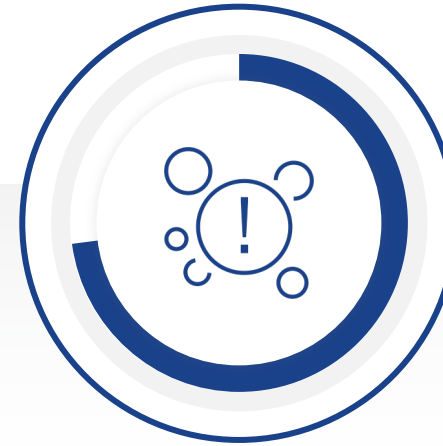

61%

Agree that  
“Remote work is no  
longer a ‘Perk’.  
**It’s a prerequisite.**”

90%

Say it is on employers  
to provide the  
appropriate **access to  
the digital tools** to  
enable remote work.

73%

Of buyers say  
that an integrated  
workforce solution is a  
**critical priority.**

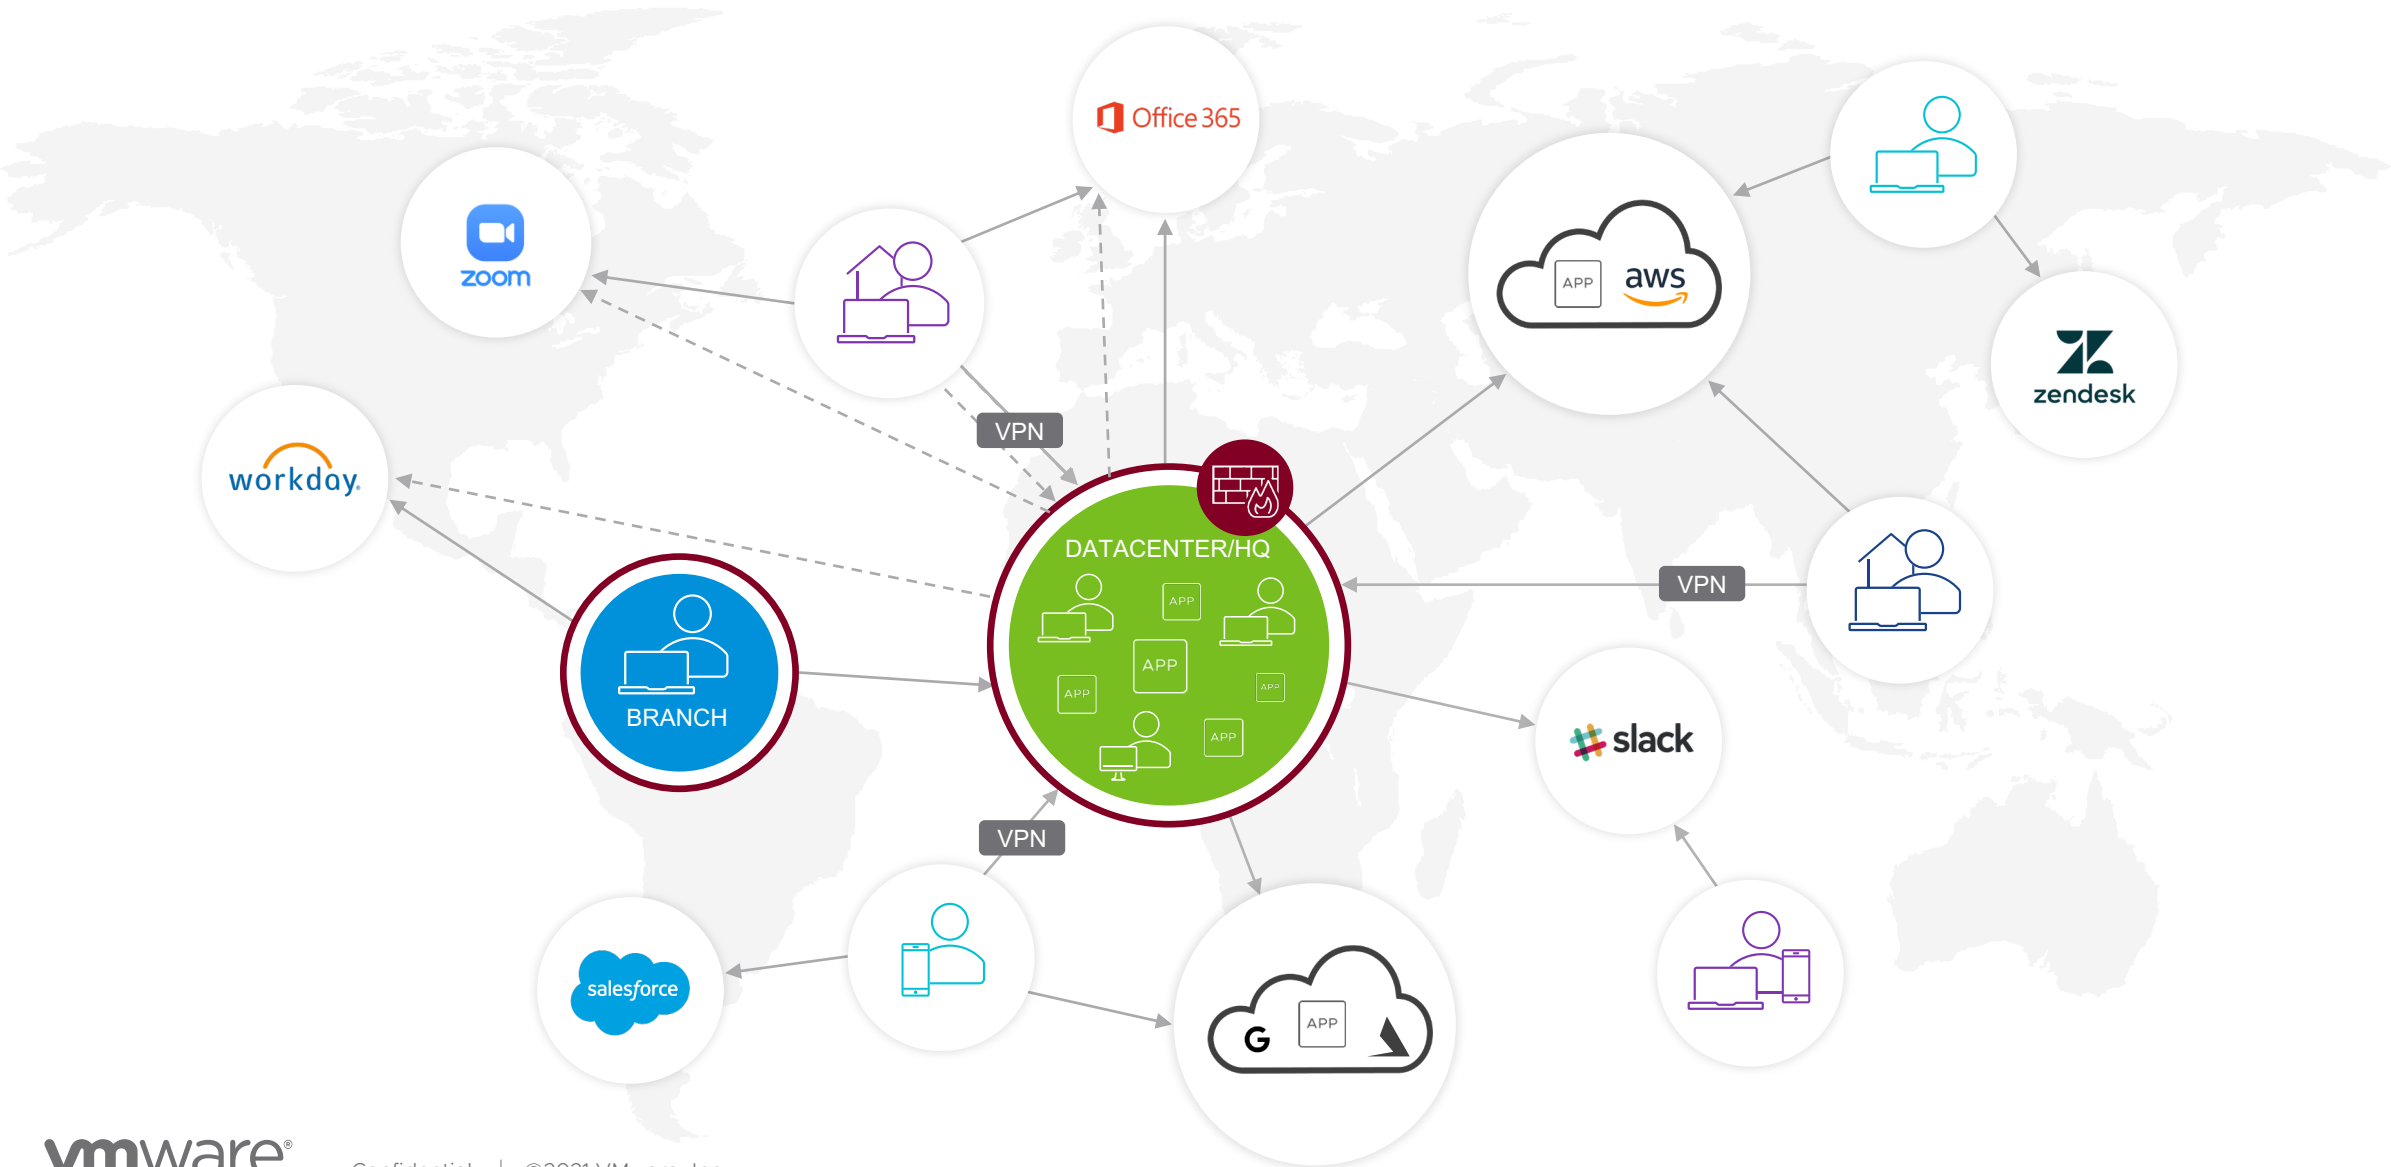

# An Anywhere Organization

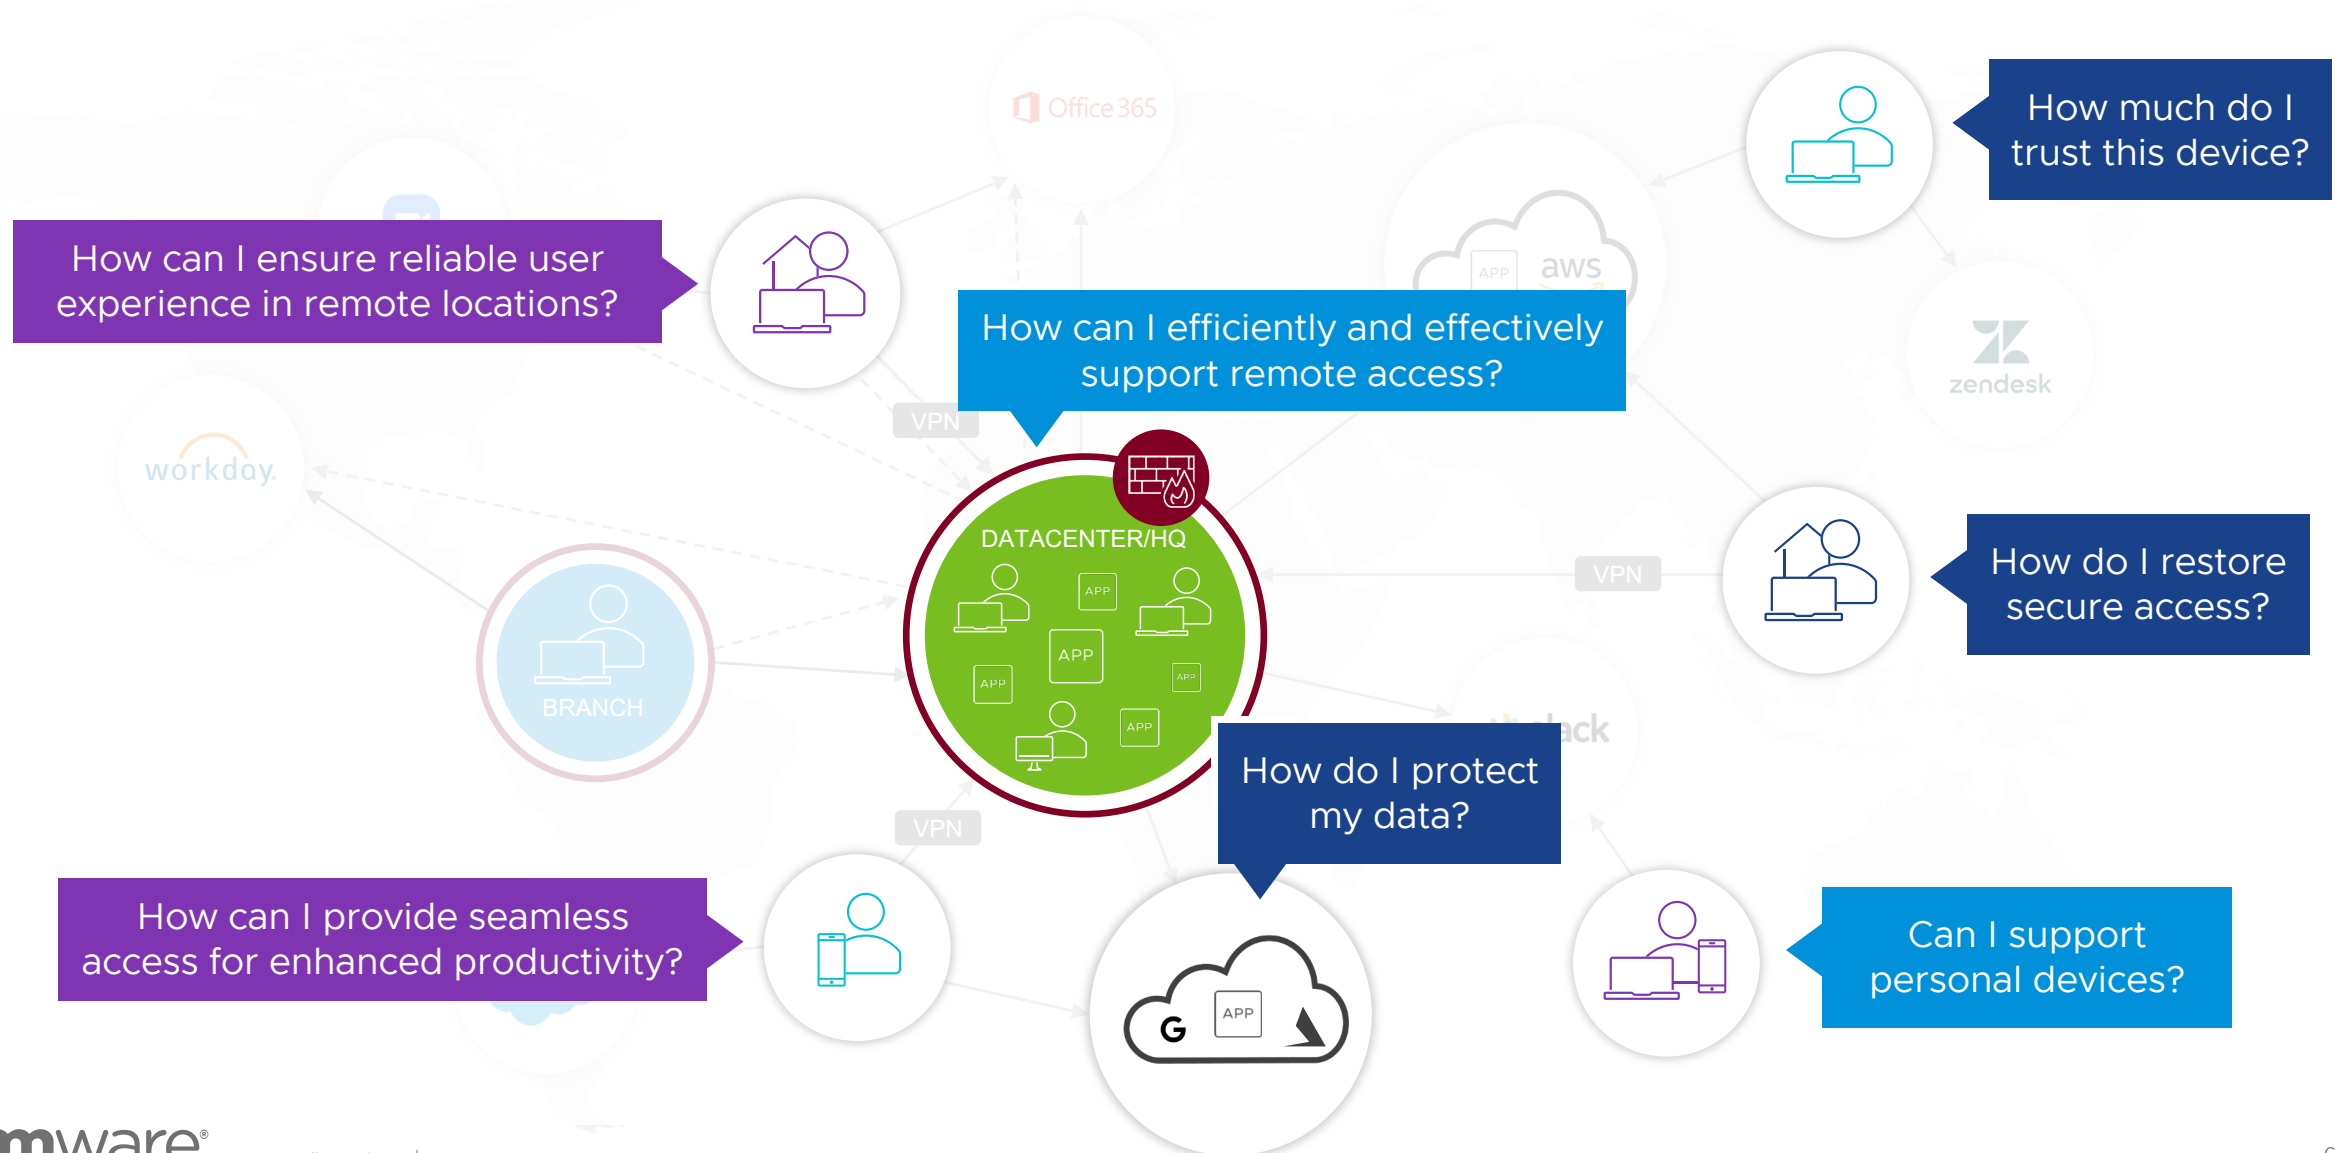

Multi-modal Workstyles Define the Anywhere Organization

# Distributed Work Comes with its Challenges

# Different Teams. Different Challenges. Different Products.

# Top Level Challenges

Impact to employee engagement and productivity

# Introducing VMware Anywhere Workspace

## Manage Multi-modal Employee Experience

Put employees first with device choice, flexibility, and seamless, consistent, high-quality experiences

## Secure the Distributed Edge

Ease the move to zero trust with situational intelligence and connected control points

## Automate the Workspace

Manage outcomes not tasks with intelligent compliance, workflow, and performance management
