

Transforming AR Departments to drive efficiency and cash flow

Versapay's modern approach to accounts receivable connects your AR department to your customers over the cloud to increase productivity, drive efficiency, and accelerate cash flow.

Outcomes achieved by Versapay Clients

50% Reduction in manual processes

30% Decrease in past due invoices

20% Average savings on payment processing fees

25% Acceleration in speed of payments

“Since implementing Versapay, we can see our *collections effort get better and better each month*. It's now become a one-stop shop for our customers and as a result, we are realizing better cash flow from it.”

John Rebesch, Director of Credit,
Gemaire Distributors

About Versapay

Versapay is a business payments and AR automation platform with 8,000+ clients and 500,000+ users driving \$12 billion in global payment volume annually. Owned by Great Hill Partners, Versapay is based in Toronto with offices in Atlanta, Cleveland, Baltimore, LA, and Las Vegas.

Features & Benefits

Streamlined Invoicing

- Issue, track, and automatically deliver electronic invoices to customers.
- Customers can pay invoices with flexible payment options through a secure link.

Integrated Payments

- Accept payments across all channels, including e-commerce and point of sale.
- Let customers pay how they want digitally and sync data automatically with your ERP.

Customer Portal & Collaboration

- Give customers visibility into their account – current status, invoice history, payment methods, auto-pay, and more.
- Resolve disputes faster with our chat-like experience. Ask questions, share documents, and post comments in real-time.

Intelligent Cash Application & Collections

- Take advantage of powerful machine learning to automatically match payments with remittance data for payments made outside Versapay.
- Automate collections through customizable email templates.

Actionable Insights & Analytics

- Make more informed decisions with real-time dashboards and data.
- Get a central, single source of truth for receivables analytics and customer behavior.
