Mandry CLOUD

DEMYSTIFY & SUPPLY CLOUD STRATEGY

Reliable, accessible data & applications through:

- Understanding the total cost of ownership for cloud vs. on-premises hosting
- Defining the strategy that makes the most sense for your organization
- Being able to provide a full, effective, scalable cloud strategy beyond Microsoft® Office 365 or Exchange server migration

Why choose us?

 Practical Strategy <ul style="list-style-type: none">• Based on your existing apps, bandwidth, devices, traffic, etc.	 Enable Scalability <ul style="list-style-type: none">• More than just storing or backing up your data in the cloud	 No Design Limitations <ul style="list-style-type: none">• Public, private, or hybrid; the strategy that makes the most sense
--	---	---

How does it work?

Process	Description
Evaluate & Strategize	We help assess your existing applications to determine whether they're supported in the cloud, understand your bandwidth needs and limitations, evaluate your devices for internet connectivity, determine storage and backup needs, and monitor traffic consumption. This all helps define the strategy that makes the most sense for your organization.
Provide & Support	Based on our agreement, we deploy new products or services to the cloud, migrate existing services, host applications, design and architect cloud infrastructure, or provide any combination of those services.
