Building a Responsive Enterprise

On a Journey

Running SAP solutions on Azure delivers **immediate insights and increased agility**

Now that we have SAP in the cloud ... we have a platform for digital innovation in the cloud ... With Azure, we've lifted our entire IT landscape up to a higher level where we can drive experimentation with much less risk and much less cost."—Sarah Haywood, Chief Technology Officer and Vice President of Technology at [Carlsberg Group](#)

An ever-evolving and growing set of Azure cloud services **drives continuous innovation**

"We are looking at drones, IoT, RFID sensors, artificial intelligence, chatbots, and every other futuristic technology you can think of to do mining better, and with Azure we have a broad foundation for exploring all that."—Head of Enterprise IT Services, [Rio Tinto](#)

Running SAP solutions on Azure offers **costs savings**

"We chose to migrate to Azure for three main reasons: cost, strategy, and speed ... We saw a big cost advantage with SAP HANA on Azure over the cloud we currently used"—David South, Director of Architecture at [Coke One North America Services](#)

Running SAP solutions on Azure offers **immense flexibility and scalability**

"Moving to Azure gives us the scalability we need ... running SAP on Azure gives us the agility and flexibility we need to disrupt the healthcare industry in a way that improves our customers' access to the products and services they need."—Dan Regalado, Vice President of Global Technology Transformation and Strategic Partnerships, [Walgreens](#)

SAP solutions on Azure **offer best-in-class security, compliance, and business continuity**

"If you go to the Microsoft Trust Center, you can see the tremendous investment Microsoft makes in security certifications and compliance. It would have been very costly for Kennametal to implement that level of security within our own environment. Instead, we get to inherit it from Microsoft."—John Johnston, Senior Manager, Global Information Security and Compliance, [Kennametal](#)

Organizations benefit from the trusted **partnership between SAP and Microsoft**

"We needed a provider that enjoys a close partnership with SAP, understands our needs, and can accelerate our migration and expand our capabilities. Azure answered every need."—Joshua Sefchek, Manager of Cloud and Enterprise Services, [Toyota Material Handling North America](#)

[Why customers, including SAP, choose Azure for their SAP solutions Total Economic Impact Study \(2021\) by Forrester Consulting SAP on Azure resources](#)
