2 – TRANSFORM PURCHASE INTENTIONS

DETECT THE PURCHASE INTENTIONS OF SITE VISITORS

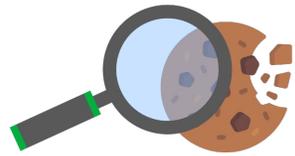

ACCOMPANYING INTENDING BUYERS TO CONVERSION

Detect and qualify the purchase intentions of site visitors

QUALIFY IN REAL TIME THE PURCHASE INTENTIONS OF VISITORS ON SITE

Whether they are anonymous individuals or recognized customers, our scoring model detects and qualifies the purchase intentions of your site's visitors to identify those who have a real project.

Real-time monitoring of individuals' navigation on the website.

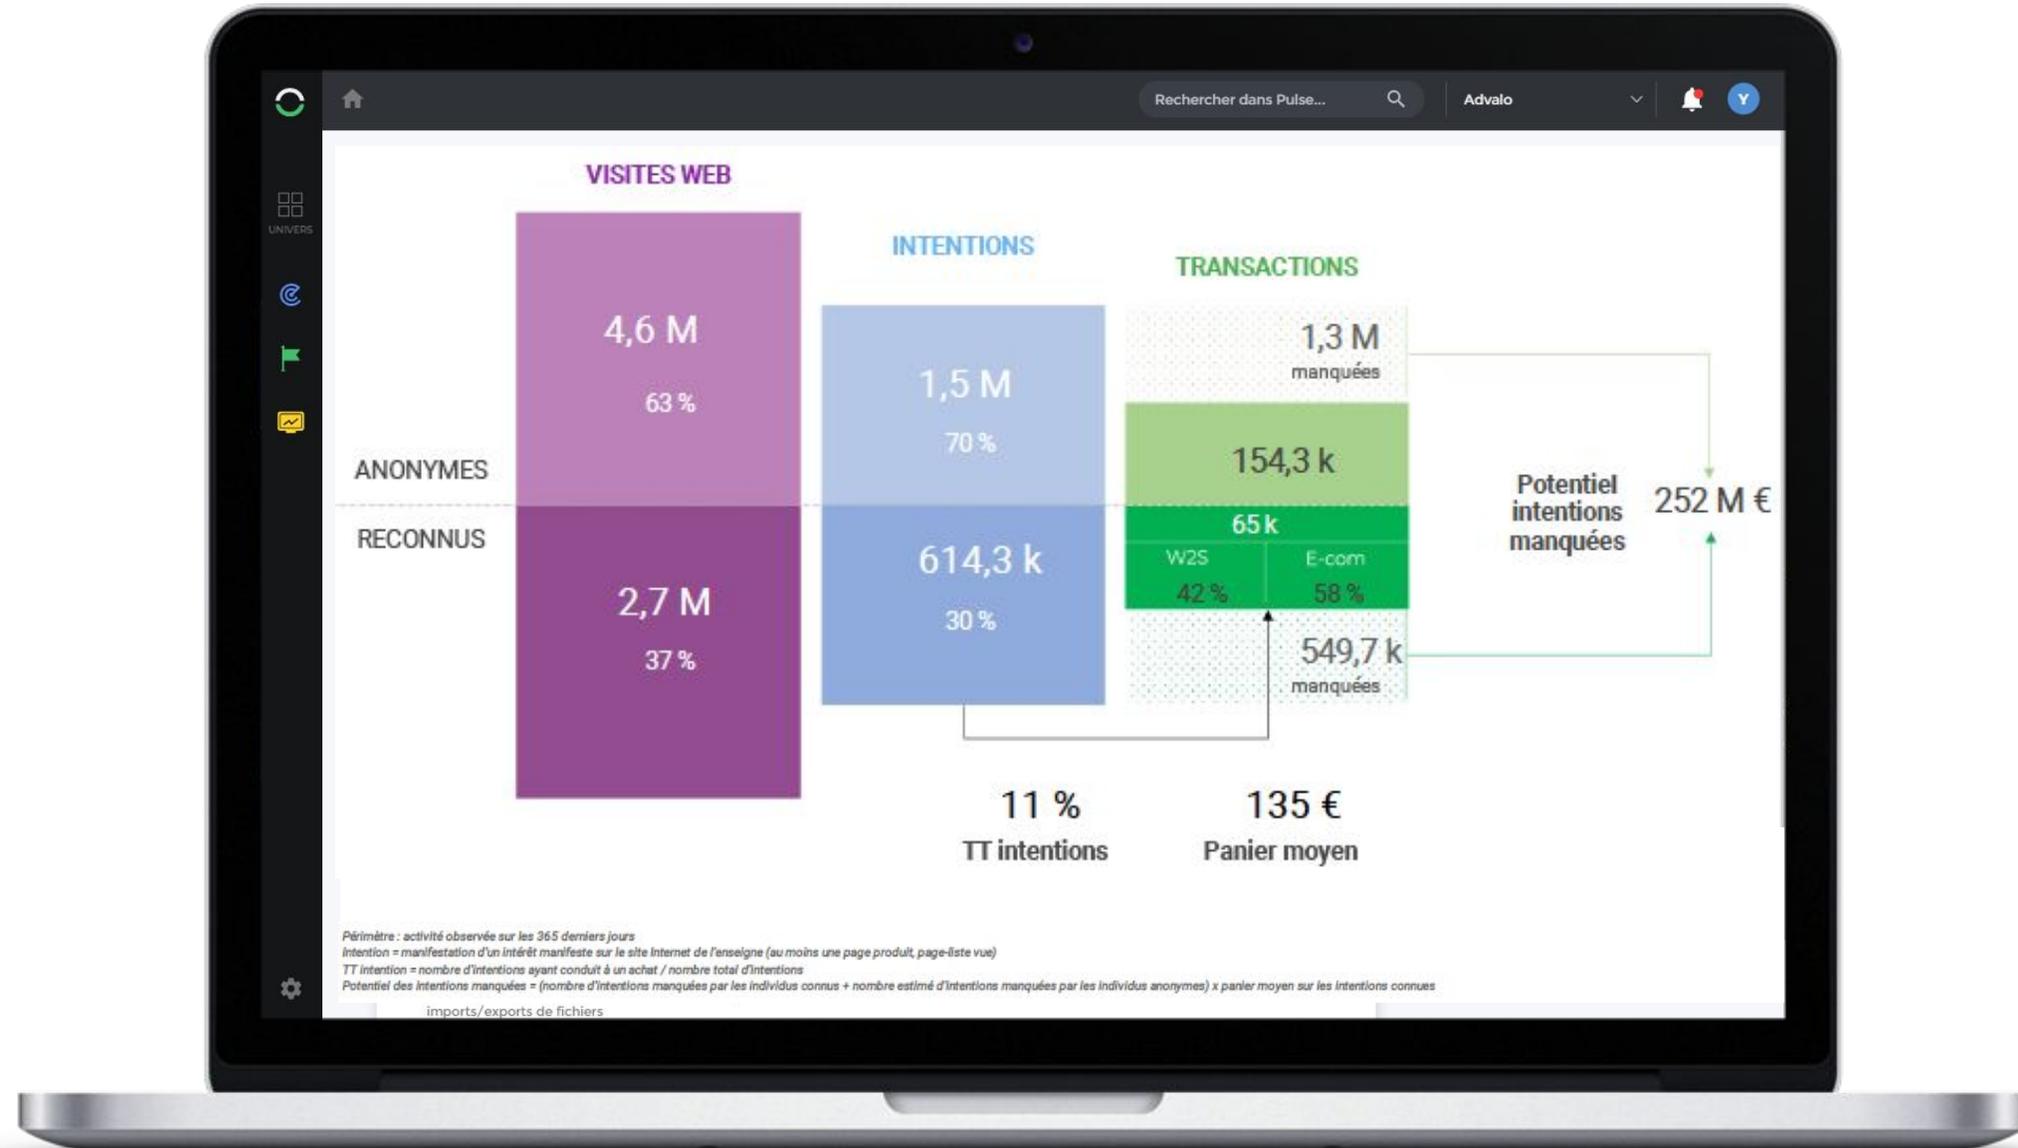

Using the Purchase Intention Scoring Model :

Depending on the browsing behavior, a unique score is assigned by the model to each individual. The higher the score, the stronger the intention to buy.

Pages visited, products viewed, put in the shopping cart or added to favorites... the search for the individual is precisely qualified.
