

## Commonly Shared Equipment Types

While evaluating Cohealo's model, our team is often asked to provide examples of pieces of equipment that are typically significantly underutilized. The below list, while not exhaustive, is meant to provide an overview of items that Cohealo has consistently found to have excess capacity and present ample opportunity for sharing. Given the variability of equipment brands, most of the below list represents equipment categories, rather than individual items.

- **Automatic Grafting Systems**
- **C-Arms; Mini C-Arms**
- **Cautery Devices** (e.g. Aquamantys, Force 2)
- **Coblaters**
- **Debriding Devices**
- **Drills**
- **Endoscopic Ultrasounds**
- **GAMMA Probes**
- **Harmonic Scalpels**
- **Imaging Tables**
- **Insufflators**
- **Laryngoscopes**
- **Lithotripsy Machines**
- **Navigation Systems**
- **Nerve Stimulator Machines**
- **Phacoemulsification Systems**
- **Surgical Cameras**
- **Surgical Drills** (e.g. Stryker, Midas)
- **Lasers** (e.g. Greenlight, Holmium, KTP)
- **Microscopes**
- **Nerve Monitoring Systems** (e.g. NIMS Monitor)
- **Surgical Positioners** (e.g. Schlein Shoulder)
- **Surgical Ablation Systems**
- **Surgical Tables** (e.g. Hana Table, Jackson Table)
- **Surgical Ultrasound Machines** (e.g. SONOSITE, BK)
- **Tissue Perfusion Devices** (e.g. Spy-PHI)
- **Towers & Scopes** (e.g. EUS, EBUS)
- **Ultrasonic Tissue Ablation**
- **Waste Management Systems**
