

ONESHEET

AVEVA™ InTouch HMI, formerly Wonderware

Setting the standard for simplifying the complex

AVEVA InTouch HMI makes it amazingly easy for operators to optimize their routine interactions with industrial processes. The more complex your operations become, the more you need a common-sense, real-time view of your business. AVEVA InTouch HMI empowers innovators from around the world with the ability to standardize and visualize their entire enterprise.

Situational Awareness for Operator Effectiveness

AVEVA InTouch HMI provides actionable information that operators need to quickly and accurately address abnormal situations before they impact operations. AVEVA InTouch HMI clears the clutter by giving operators exactly what they need to hone in on the most important aspects of their work while minimizing distractions and fatigue.

Versatility and Extensibility

AVEVA InTouch HMI is an open and extensible HMI with intuitive graphical animation and scripting capabilities that provide incredible power and flexibility for application designers. AVEVA InTouch HMI offers the ability to use vector graphics, bitmap graphics, library symbols, .NET controls and legacy ActiveX controls.

Remote Access from Any Device, Anywhere

AVEVA InTouch HMI is also fully mobile. Casual and remote Web HMI and mobile SCADA users can now view and control real-time plant floor operations using a AVEVA InTouch Web Client or mobile Apps supporting any iOS or Android device.

AVEVA InTouch Access Anywhere provides access to InTouch HMI applications via any HTML5-compliant web browser, and it completes our vision of enabling visualization, collaboration and execution at various levels of the organization, with zero client installation and zero maintenance. It enables users to securely monitor or troubleshoot plant equipment or process from any location, on any device, at any time.

Excellence is a purpose we share with our customers

AVEVA is committed to being your long-term automation partner, backed by a world-class global network of technical support personnel, distributors, system integrators and VAR/OEMs, ready to assist you in every corner of the world.
