

Ryman Healthcare Sustainability Framework

“Leading by example”

Our Vision: To become a leader in the areas of sustainability and environmental awareness within the Aged Care sector.

Our Approach: With reference to relevant United Nations (UN) Sustainable Development Goals, implement strategies within key areas of our business to drive and maintain focus on sustainability and environmental awareness...

Our People	Our Places	Our Business
<ul style="list-style-type: none"> Promoting environmental awareness amongst all our employees and encouraging them to work in a sustainable and environmentally responsible manner. Encouraging the use of environmentally-friendly forms of transport within our Villages and the wider community. Communicating Ryman’s commitment to sustainability and environmental awareness to all our residents and their families, and encouraging them to support it. Conducting all activities in accordance with Ryman’s current Health and Safety Policy. 	<ul style="list-style-type: none"> Minimising waste, and then re-using or re-cycling as much of it as is possible. Disposing of environmentally hazardous materials in an appropriate manner. Minimising energy and water use in order to conserve supplies and reduce the consumption of natural resources. Re-using surplus equipment and repairing damaged equipment rather than buying new equipment, where practicable. Remediating any disturbed flora and fauna areas to their original state, as far as practicable. Developing and maintaining appropriate emergency and spill-response programs in compliance with relevant legislation or where significant health, safety or environmental hazards exist. 	<ul style="list-style-type: none"> Integrating the consideration of sustainability and environmental awareness into all decision-making and activities undertaken. As far as possible and practicable, purchasing products and services that do the least damage to the environment. Donating unwanted materials/items to charitable organisations for re-use. As far as possible and practicable, ensuring all products purchased are sourced in an ethically and environmentally responsible manner. Partnering with other organisations to coordinate and promote sustainability and environmental awareness. Obtaining appropriate environmental certifications relating to our business.

UN Sustainable Development Goals Targeted
