

Barney Weston | Managing Director

Agency Overview

We're a boutique search firm operating primarily within the niche of Freight Forwarding, Shipping, Logistics & Supply Chain industries. For over two decades we have developed tailored recruitment solutions, resulting in the most formidable network of clients worldwide.

Business Challenge

Initially we wanted to add video to our process to stand-out in the crowd. We intended to offer something different and lead the way in adding more value through the service. We shopped around and found Odro's combination of features, usability and pricing was the best. The on-going support and customer success teams are excellent.

The Outcome

Odro has helped us to win new customers in global territories. Our existing and new clients have been amazed by our service, and the presentation of candidates using video. Odro has been a big hit with the candidates too who love being able to interview at anytime from anywhere.

“Partnering with Odro was a fantastic decision for our business. Integrating the features of the platform with our service offering has proven very successful. The platform is simple and straightforward to use, easy to brand as your own and the on-going support has been first class.”
