

# Turn your smartphone into a secure wireless microphone

PowerMic Mobile gives clinicians the freedom to complete clinical documentation using a smartphone as a wireless microphone.

## More freedom, the same PowerMic experience

PowerMic Mobile turns your smartphone into a secure wireless microphone for use with Windows-based desktop clinical speech recognition solutions. Optimized for use with Dragon Medical One and other Nuance healthcare solutions, PowerMic Mobile gives clinicians the freedom to roam from workstation to workstation, room to room, and location to location to complete clinical documentation using a smartphone as a wireless microphone at the desktop.

### Subscribe

Healthcare organizations subscribe to PowerMic Mobile, and clinicians simply download the iPhone or Android app.

### Connect

Users log into any supported PC and their smartphone automatically pairs with the workstation to provide wireless connectivity for audio capture.

### Capture

The smartphone's microphone captures the audio and inputs it directly into the speech recognition solution, functioning just like the PowerMic III, including user programmable buttons.

PowerMic Mobile enhances clinicians productivity and convenience with support for virtualized EHR deployments, user programmable buttons, and 256-bit encryption with end-to-end security over WiFi or cellular networks. Clinicians can now opt to use PowerMic Mobile as a complimentary input device, or as an alternative, to the PowerMic III or other supported handheld or headset microphone.

## FEATURES AND BENEFITS

**Greater clinician mobility.** Clinicians can complete their patient notes at any available workstation, with or without a hard-wired microphone, as soon as they meet with each patient.

**Scalable and centrally managed.** PowerMic Mobile is highly scalable so it can grow with your organization and offers web-based central management for configuring and managing user accounts and preferences.

**Works with virtual desktops.** Desktop or thin client, at work or outside the office, PowerMic Mobile offers greater clinician mobility throughout the hospital, clinics, and at home with vendor-agnostic and endpoint-agnostic support for virtualized EHRs.

**Automatic workstation pairing.** PowerMic Mobile offers several intuitive mechanisms for pairing mobile devices with target applications, including Windows Login ID, Nuance Application Username, or token-based pairing.

**User programmable buttons.** PowerMic Mobile makes dictation easier and faster with programmable on-screen buttons to control audio capture, navigate templates, and effortlessly move through clinical documents for review and editing.

**Compatible with iOS and Android.** App distribution via the App Store and Google Play Store significantly simplifies end-user roll out.

**Perfect companion to PowerMics.** Support individual preferences and workflows by offering a combination of hard-wired PowerMics and PowerMic Mobile throughout the healthcare organization.

**Optimized for Nuance solutions.** Designed to work with any Windows-based desktop solution, PowerMic Mobile has been fully tested and optimized for use with Dragon Medical One and other Nuance healthcare solutions.

---

“Clinicians can use voice recognition on any workstation or laptop because PowerMic Mobile automatically pairs with the device. It is so slick, it’s really unbelievable. The accuracy is uncanny—it’s as accurate as the PowerMic but at a lower cost. It works incredibly well.”

— Paul Clark, MD  
CMIO, Concord Hospital

### Subscription and Licensing

PowerMic Mobile requires an enterprise subscription. If your healthcare organization does not have a subscription to PowerMic Mobile, please have your site administrator call 877-272-8280. If your organization has an active subscription, please contact your site administrator for installation instructions for how to download and activate PowerMic Mobile on your personal wireless device.

### System Requirements

Hosted Nuance Management Server (NMS) and enterprise license subscription required. Minimum device requirements: iOS 9.3.5 or later (iPhone 4s not supported) or Android 6.0, Windows PC, and Internet connectivity

### About 1st-Dragon/CME

The origins of 1st-Dragon/CME began during the 1990s when we started working with earlier versions of voice recognition software. As the development of EHR/EMRs appeared on the market, we focused our efforts on customizing Dragon Medical to compliment the workflow of each provider based on their utilization of the EHR/EMR. Today, we are a trusted Nuance Platinum Partner with more than 22 years of experience helping thousands of healthcare organizations enhance their workflow using Dragon Medical One. We have evolved into an organization with the experience to work with and support all practice sizes. We specialize in offering our clients a customized approach which is designed specifically for their clinical workflow.
