

# RARE DISEASES

## AT EVOTEC

### Rare talent developing treatments for rare diseases

Rare Diseases affect >60 million people across the USA and Europe with often severe and life threatening consequences.

Most of these diseases have no known cures or treatments. The facts and figures presented above illustrate how Evotec can contribute to the development of new rare disease therapies.

#### RARE DISEASE FACTS

**7000**

Rare Diseases

**>60** Million

Patients in USA and EU

**75%**

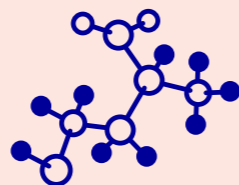

Patients are children

**95%**

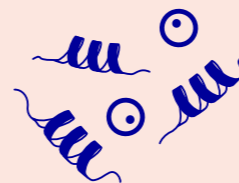

Conditions are untreated

#### EVOTEC'S MODALITIES

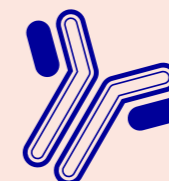

Small Molecules

Cell & Gene Therapy

Biologics

Antisense Therapies

#### EVOTEC'S RARE DISEASE EXPERIENCE

Huntington's Disease

Haematology Diseases

Lysosomal Storage Disorders

Rare Disease Cancer  
e.g. Kaposi's sarcoma

#### EVOTEC EXPERTISE
