

How To Successfully Integrate Microsoft Teams With SIP Endpoints

**During the webinar please use the Q&A feature
located in bottom right corner of your screen!**

**We will answer the questions at the end of the presentation
Thank you!**

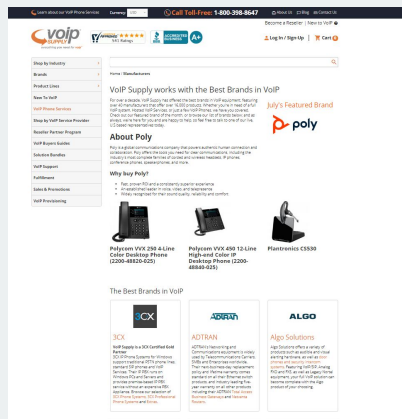

We Are VoIP Supply

Who is VoIP Supply

VoIP Supply is North America's leading VoIP solutions provider.

We have been taking the stress out of VoIP Solution design since 2002! Reclaim your industry experience and join our team of over 125,000 customers.

Product Catalog

Over 5,000 products from over 60 of the industry's leading manufacturers

We are More than just a Website!

Best Places to Work in Western New York
500/5000 Company

Buffalo Niagara Business Ethics Award Nominee

VoIP Experts

Combined, our experts have over
FIFTY years of experience

Reseller Benefits

Since 2002 VoIP Supply has delivered unparalleled service and expertise to over 125,000 customers worldwide.

VoIP Rental Program

our Device as a Service (DaaS) rental program gives your customers the widest variety of VoIP Products for a low monthly payment!

Hardware & Provisioning

featuring over 60 manufacturers that offer over 16,000 products and the ability to provision for you!

CloudSpan MarketPlace

a single place to shop various VoIP service providers - build up your MRR and receive discounts on hardware selling through VoIP Supply

Fulfillment

provisioning and professional services from multiple warehouse locations in North America; providing real-time access to manage your projects from order through delivery

Refresh & Reclaim

offering certified reconditioned devices at a fraction of the cost plus offering an outlet for selling off used and excess VoIP equipment

What We Will Cover

- CyberData company history
- Microsoft Teams – by the numbers
- Overview of useful SIP endpoints in a Microsoft Teams Environment
- Overview and use cases of Microsoft Teams integration

CyberData History

- Based in Monterey, CA and business since 1974
- Vertically integrated product development company
- In-house manufacturing - production facility located in Monterey
- Marketplace specialists in VoIP Endpoints and POS (Point of Sale) connectivity solutions
- TAA Compliant (All SIP, InformaCast, and Syn-Apps enabled devices)
- Partners with VoIP Supply since 2017

Microsoft Teams By The Numbers

Daily active users of Microsoft teams have nearly doubled since April 2020 (75 million). Microsoft Teams now has 145 million active users*

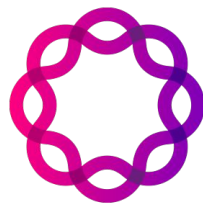

Number of organizations with more than 1,000 users, integrating their third-party & line of business applications with Teams has increased nearly 3 times year over year*

Companies like Ribbon or Vodia's multi-tenant system makes it easier than ever to integrate seamlessly with 3rd party endpoints from CyberData and Microsoft Teams

*Statements from Microsoft Teams CEO Satya Nadella during earnings call, April 21.

IP Paging

- SIP IP66 Indoor/Outdoor Horn
 - Ideal for warehouse and outdoor paging
- SIP Talkback Speaker
 - Alerting and two-way communication
- SIP Outdoor RGB (Multi-Color) Strobe
 - Perfect for loud environments
- Multicast Wall Mount Speaker
 - Cost saver

The top photograph shows a smart meter mounted on a wall. The meter is a small, rectangular device with a screen and buttons. It is connected to a bundle of pipes, including a large blue pipe and a smaller red pipe. The meter is mounted on a concrete wall, and a black cable is visible hanging from it.

The bottom photograph shows a woman with blonde hair and glasses, wearing a grey sweater, pointing at the smart meter. The meter is mounted on a wall made of large, light-colored stone tiles. The woman is standing next to a door frame.

-
- The diagram illustrates a RingCentral SIP system architecture. At the top, a "Music Source (Background Music)" is connected to a "SIP Paging Server" (011146) via a purple arrow. The SIP Paging Server is also connected to a "PoE Switch" (011186) via a green arrow labeled "SIP". The PoE Switch is connected to a "SIP Phone" (011188) via a green arrow labeled "SIP". The PoE Switch is also connected to a "SIP Outdoor Intercom" (011188) via a green arrow labeled "SIP". The PoE Switch is connected to a "SIP IP66 Outdoor Horn" (011457) via a green arrow labeled "SIP". The PoE Switch is connected to a "SIP Speaker w/ Conduit Mount" (011394) via a green arrow labeled "SIP". The PoE Switch is connected to a "SIP RGB (Multi-Color) Strobe" (011376) via a green arrow labeled "SIP". The PoE Switch is connected to a "RingCentral" logo via a green arrow labeled "SIP". The PoE Switch is connected to a "Microsoft Teams" logo via a green arrow labeled "SIP". The PoE Switch is connected to a "RingCentral" logo via an orange arrow labeled "Multicast". The PoE Switch is connected to a "Microsoft Teams" logo via an orange arrow labeled "Multicast". The PoE Switch is connected to a "RingCentral" logo via a blue arrow labeled "IP to Analog". The PoE Switch is connected to a "Microsoft Teams" logo via a blue arrow labeled "IP to Analog". The PoE Switch is connected to a "RingCentral" logo via a blue arrow labeled "IP to Analog". The PoE Switch is connected to a "Microsoft Teams" logo via a blue arrow labeled "IP to Analog".

Intercoms for Access Control

Simple integration
with Ribbon or
RingCentral and
Teams

Full-duplex
communication

Door control
using DTMF

Ideal for front
doors or gates
