OVERHEAD**

Europe's leading cloud-native systems integrator Nordcloud accelerates digital transformation of their enterprises with the latest cloud technology. Since 2011, Nordcloud has completed more than 1000 successful deployments that have helped its enterprise customers reap the full benefits of the public cloud, including better security, agility, scalability and reduced costs.

Nordcloud has chosen ONEiO's integration solution to seamlessly integrate all its customers into a single hub. By doing so, they have been able to increase their employee and customer experience while decreasing maintenance and support overhead caused by traditional custom-made point-to-point integrations.

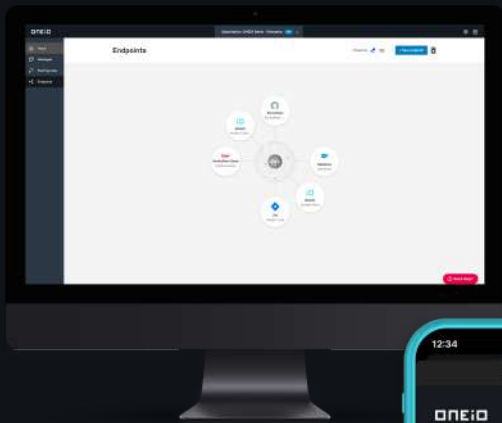

ONEiO is a world's first subscription based integration hub for buyers and providers of IT and other business services. ONEiO enables an ecosystem of people, applications, processes and suppliers filling the gap between customers, internal teams as well as external service providers.

"The world is moving towards a future where complexity is no longer a deterrent, technology won't slow you down, capacity is not the limit and scalability not an issue. Nordcloud and our customers benefit from ONEiO integration hub greatly by having transparency and control over the processes and services we deliver and co-create together",

- Nordcloud CEO, Jan Kritz

"I'm really excited about our cooperation with Nordcloud who have strong track record as a forerunner and a trusted advisor for their clients in modern cloud-based services and have been disrupting the industry just like us" says ONEiO's CEO and Co-founder Juha Berghäll. "ONEiO is a perfect solution for service providers who want to focus on their core businesses and ensure exceptional customer experience across their service delivery" he continued.

“ONEiO is a perfect solution for service providers who want to focus on their core businesses and ensure exceptional customer experience across their service delivery”

- AUTOMATED.
- SCALABLE.
- CLOUD BASED.
- DELIVERED BY INTEGRATION ROBOTS.

ABOUT NORDCLOUD

Nordcloud employs 400+ cloud experts in offices around Europe including Amsterdam, Copenhagen, Gothenburg, Helsinki, Jyväskylä, London, Munich, Malmö, Oslo, Poznań, Salo, Stockholm and Tampere. Nordcloud is one of only 2 European players in Gartner’s Magic Quadrant for Public Cloud Infrastructure Managed Services Providers 2019. Nordcloud is a rare company worldwide to have audited partner certifications with all three hyperscalers: Amazon Web Services, Microsoft Azure, and Google Cloud Platform.

ABOUT ONEiO

ONEiO Cloud Corporation is a software as a service (SaaS) provider specializing in the further development and production of their next generation integration platform (iPaaS). Founded in 2011 in Helsinki, Finland, and now with offices in Germany, the United Kingdom and the United States, ONEiO’s iPaaS enables an effortless and easy integration without specific integration skills and removes the problems related to traditional integration delivery, maintenance and reliability. If you’d like to get started, try ONEiO free for 14 days and have your integrations up and running within just a few hours.

ONEiO FREE YOURSELF.
