

Minimum system requirements
For Android 5 and above

AVG Cleaner PRO for Android

Total cleanup and
speedup for your phone

Our Deep-Cleaner

This is more than your average cache cleaner. AVG Cleaner removes leftover junk files in a single tap, freeing up space you didn't know you had: Hidden caches, long-forgotten app junk, obsolete installer files, and more.

A boost for speed and battery

Our Sleep Mode stops apps from draining your data volume, battery life, and storage space. And, our Battery Booster gives you that extra plus in energy.

Smart data management

Our Media Dashboard scans and helps you manage old files, huge data hogs, optimize images, and find blurry or duplicate photos — all from one screen.

Our All-Round Mobile Optimization Suite

Clean up, speed up, and extend the battery life of your Android phone.

Deep-Cleaner

AVG Cleaner for Android scans your phone for hidden leftover files clogging up your space. And gets rid of it in one tap! We remove files such as:

- Long-forgotten user data: Often forgotten data hidden inside WhatsApp, Spotify, and other popular apps
- Residual files: Temporary data left behind by uninstalled apps
- Obsolete installers: APK files the user has already installed
- Thumbnails: Preview pictures from images viewed in apps
- Cache files: Temporary files stored in apps

Media dashboard

AVG Cleaner for Android's media dashboard analyzes your phone's data and shows:

- Large videos
- Which folders contain your data
- Optimizable photos

PRO Photo Optimizer

Save space by optimizing the size of your photo library automatically: Choose between low compression for print quality or high compression for more space.

App drainer detection

Using our AI and a smart database, we quickly identify which apps:

- You haven't used in a while
 - Drain your smartphone's resources significantly, such as CPU, battery, memory, and mobile data
 - Are pre-installed bloatware that you don't use at all
- ...and helps you uninstall them!

Photo cleaner

Our Photo Cleaner detects blurry, poorly lit, and duplicate photos using our intelligent algorithms – and helps you get rid of the ones you don't need.

PRO Battery profiles

Turn off phone features such as Bluetooth, Wi-Fi, mobile data, and background sync when — and wherever — you don't need it.

PRO Automatic Cleaning

Let us do the chores for you: Automatic Cleaning gets rid of all junk files on a regular basis or once it reaches a certain threshold.

PRO Themes

Fancy some new style? Use themes and get a sleek look for your AVG Cleaner for Android.
