

Minimum system requirements

Google Android 4.1 (Jelly Bean, API 16) or higher.

AVG Mobile Ultimate

Give your Android the Ultimate treatment with enhanced protection, privacy, and performance.

Power up your protection

Keep your android safe from anything that could put it at risk — from malware to fake websites to real-life crooks who might try to snag your device.

Rediscover true privacy

Hide your IP address and online activity so you can browse, shop, and do whatever you'd like online without worrying about spies.

Enjoy boosted performance

Tap once to improve your battery life, boost performance, and make room in your Android's memory for the stuff you love most.

Get the best, forget the rest

AVG Ultimate for Mobile ensures every part of your Android experience is cared for, so you can simply enjoy your device without worry.

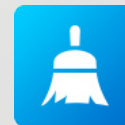

AVG AntiVirus Pro

More than an antivirus, AVG Mobile Antivirus Pro enhances your digital security with protection against thieves (or just forgetfulness). Between app-locking, phone tracking, and the ability to automatically photograph thieves, you'll never have to worry about finding your back pocket empty.

AVG Secure VPN

Feel free to take full advantage of your mobile device, no matter where you go in the world. With AVG Secure VPN, you can encrypt your connection and hide your IP address, which will allow you to safely and privately use any of the public Wi-Fi you find in your travels without fear of being spied on.

AVG Cleaner Pro

From junk files to unused apps — the list of things slowing down your mobile device is extensive. But AVG Cleaner Pro makes cleaning them up easy. We'll find everything interfering with your Android's performance, battery life, or memory, and fix it — automatically.
