

# AVG Internet Security

Our best all-round protection — both online and off

## Our best security

Our cloud-based artificial intelligence and the world's largest threat-detection network protect you in real-time from viruses, ransomware, hackers, fake websites, and other threats.

## Our best privacy

Built-in webcam protection stops peeping Toms from using your PC webcam to spy on you, and our Sensitive Data Shield stops spyware from snooping through private documents on your PC.

## Always up-to-date

We automatically push updates to you as soon as they're available, so you always have the latest virus definitions, bug fixes, security updates, and new features.

### Minimum system requirements

Microsoft Windows 7, 8, 8.1, or 10  
2 GB of hard disk space for installation  
Internet connection for automatic updates
