# Broadcast Communication

A flexible approach to emergency and targeted group messaging.

Preparedness - be ready when it really matters.

A tool to enhance emergency responsiveness and streamline communications requirements for building managers.

- Blast messaging by groups and roles
- Can be used for emergency notifications
- Available via role based access
- Send message via email, text, fax
- Pre-save messages and select from a dropdown
- Schedule messages for automatic delivery
- Custom contact groups for tenants, vendors, employees
- Send to all tenants in the building
- Include attachments
- Track broadcast history
- Send to internal employees by role
- Configurable sender address
- Configurable message look and feel
- Branded with management logo and layout
- Messages can also be posted to the user site

Flexible. Powerful. Essential.

In today's world it is essential to be able to send messages quickly, whether emergency or routine, to specific groups and roles in the building and organization. NetFacilities allows you to define the groups you want including vendors, tenants, and employees, based on their specific roles.

You can even prewrite messages and pick from a drop down menu to send it fast when every minute counts. Be ready whether it is a natural disaster situation or just a gathering in the lobby. Personalized, automated and on demand.

Broadcast:

- Scheduled and on demand
- By email, text, fax
- Easy drop down menus
- Announcements, alerts
- Permission based feature
- Mobile access too

Results:

- Emergency preparedness
- Greater compliance
- Enhanced service delivery
- Tenant satisfaction
